NO. 263--FIFTY-SIXTH YEAR | VICTORIA, VANCOUVER ISLAND, BRITISH COLUMBIA, THURSDAY, OCTOBER 15, 1914 | TWELVE PAGES

FRENCH PORTS ARE PROTECTED

German Attempts to Reach Points on Channel Coast Will Meet With Strong Resistance—Forced Back.

LINE IS EXTENDED INTO BELGIUM

Contest for Ground in This Region Expected to Be Keen —Turkey and Portugal May Become Involved.

LONDON, Oct. 14.—While it is fully expected that the Germans will reach Ostend and other ports in the North-west of Belgium, if they have not already done so, they will meet with a stubborn resistance in their attempt to extend the right wing of their main army through Pas de Calais to the French Northern ports. In fact they have fallen back in this region in face of the Allies' offensive.

A few days ago the German cavalry were fighting as far west as Hazebrouck and Cassel, but today, according to the French official communication issued this afternoon, the front of the battle extends from La Bassee through Estaire to Bailleul on the Belgian frontier, while across the border the Allies have occupied Ypres. This is a distinct gain for the Allies, and shows that the German attempt to work around their left has failed, the German right being bent back toward Lille and Courtrai, both of which places the invaders hold with strong forces.

Scene of Hard Struggle

It is here that heavy blows, which both sides hope will bring about a decisive result in the long drawn out battle, will be struck. It is for this reason that the Germans will be able to make their way to Ostend, although even there some troops have been left to inflict what damage they can before joining the larger bodies farther south.

The censorship has prohibited any mention of the operations to the north of Arras, which probably is responsible for the belief that the Allies have prepared what one military critic declares is a "smashing blow, which will be the more crushing in its effect the longer it is delayed."

Of the recent fighting elsewhere the French communication simply says that the operations are proceeding normally on the left wing as far as the Oise, that the Allies' progress in the Berry-au-Bac region is confirmed and that on the right wing there is nothing fresh.

For the first time, however, the French general staff takes notice of and denies some claims put forth by the Germans. It is denied that two French cavalry divisions have been destroyed, and it is asserted that the French cavalry inflicted severe losses on the German cavalry. It is declared also that the Germans have not come into touch with the fortress of Verdun, and that attempts to do so have failed, while in their efforts to cross the Meuse at St. Mihiel they were outflanked.

German Claims

The German reports coming through Rome say that the real struggle is only just beginning, and that, if necessary, 5,000,000 men can be called upon for compulsory service, while many volunteers also are available.

Vienna makes the claim that the Russians have evacuated Lemberg, while the Russians have denied a similar report that they had given up the siege of Przemysl. It would not surprise military men if the Russians withdrew from Galicia to concentrate all their forces for the supreme struggle which, with the advance of the Austro-German armies in Poland, is now upon them along the Vistula River from south of Warsaw to their southern boundary.

Nothing has come through concerning the battle on the East Prussian frontier, but the activity of the German fleet in the Baltic and Gulf of Finland may presage the arrival of German reinforcements which it was reported some days ago were being embarked at German Baltic ports.

A German squadron, the flagship of which is flying the flag of Prince Henry of Prussia, has been cruising in the vicinity of the Aland Islands, and only a day or two ago the Russian cruiser Pallada was torpedoed by German submarines, two of which were lost. The presence of the German ships probably would prevent the Russian warships from coming out to interfere with the ships, should troops be sent.

Turkey and Portugal

There was every indication today that Turkey and Portugal would be drawn into the war. Portugal has not declared war on Germany, as was reported earlier in the day, but a partial mobilization of her forces will be ordered tomorrow, and martial law has been declared in Portuguese Congo.

Portugal has an alliance with Great Britain, but this is purely defensive, and was negotiated for the protection of Portugal and not with the idea that

NAVAL BATTLE OFF COQUIMBO

BUENOS AYRES, Oct. 14.—A cablegram from Valparaiso says that a naval battle occurred yesterday between British and German cruisers off Coquimbo. The names of the ships are unknown and no details of the fight are given.

MEN OF NEWFOUNDLAND

First Regiment Is Dispatched From St. John's For the Front—Now Near Shore of England

ST. JOHNS, Nfld., Oct. 14.—The Evening Herald of October 5 says:

"The first Newfoundland regiment got its orders to embark on Saturday afternoon, and, leaving the camp at Pleasantville at 4:30, headed by the C. C. C. band, marched up Quidi Vidi, King's Bridge and other streets to the Furness Pier, in the east end, where the Red Cross liner Florizel, chartered to convey the men across the Atlantic, lay awaiting them, which ship they boarded in due course, then hauling off into the stream at 7 p. m. and remaining there until 10 p. m. yesterday, when her captain received final instructions from His Excellency the Governor and put to sea.

"Capt. Franklin, who commanded the regiment while here, was dispatched by the Governor on the Carthaginian on Saturday evening to London to report to the War Office and assist in arranging for the landing and locating of the men in England, where they will likely be quartered at the depot of some English regiment.

"The grand total of men in the regiment aboard the Florizel is 526 persons."

Lord Mayor's Show

LONDON, Oct. 14.—The Lord Mayor's show will this year be held on a very limited scale. Usually the 9th of November witnesses a huge procession all around London, which never fails to arrest all business and traffic for several hours. This year a very short route will be taken, and all clowning and spectacular features will be omitted. As already announced, a banquet will be held as usual at the Guildhall. Mr. George McLaren Brown, European manager of the Canadian Pacific, is on the Lord Mayor's committee this year.

SOUTH AFRICA SURELY LOYAL

Revolt Led by Maritz Not Likely to Be of Long Duration—Great Body of Population Supports General Botha.

LONDON, Oct. 14.—The Morning Post's Cape Town correspondent sends the following: "Maritz' ultimatum, containing reference to Generals Hertzog, Beyers and De Wet, does not necessarily mean that these leaders are implicated in the plot. It may have been an attempt to drag them in. Gen. Beyers alone is generally mistrusted.

"The general indications are that the Maritz revolt and the prompt action of the Government are producing a fresh wave of enthusiasm for Gen. Botha personally and for his policy. In view of the mischievous influence of certain Hertzogite preachers, there is special reason for gratification in a letter from Rev. A. I. Steytler, moderator of the Dutch Reformed Church, who speaks with enthusiastic approval of the attitude of Gen. Botha and the Government, and declares that the action of Beyers is incomprehensible.

"Reitz, president of the Senate, and ex-president of the Free State, interviewed by The Cape Times, said: 'Maritz must be mad,' and expressed the view that Gens. Hertzog, Beyers, Kemp and Miller were not in the plot, but that Maritz desired to involve them.'

"Reitz added: 'I know all of them personally, some of them intimately. I don't for a moment believe any one of them either knew Maritz' intention or would approve of what he has done.'

"Hopes are entertained for the success of the appeal of leading Cape Town Africanders to ex-President Steyn whose influence is paramount above Hertzog's or even De Wet's with the Orange black-veldt quarter, which Maritz has been canvassing chiefly for support.

"Onsland has a vigorous article calling for the support of the Government, describing Maritz' conduct as unheard of and most humiliating to Africanders. It says that mention by Maritz of five Boer generals places them in a most unenviable position. 'People have the right to expect them to make declaration immediately and publicly that they have had nothing to do with the rebellion and revolt,' the article concludes."

In itself the action of Col. Maritz is not considered of serious importance. His following is small, and his force is situated in a district where it can be of least value to the Germans in Southwest Africa.

A man well acquainted with South African affairs said yesterday that Gen. Botha was probably very glad of the opportunity to proclaim martial law, as it would enable him to take measures which ordinary law would not permit.

"It is a mistake to judge South African affairs by English standards," said this authority. "Their methods are much more rough and ready, and Botha will lose no time in taking measures to squelch Maritz and his followers. Hertzog has nothing to do with this affair, and one result of Maritz' act will be to drive waverers into Botha's ranks and give a great stimulus to recruiting.

"SURPRISE FOR BRITAIN"

Rumors Floating Through to Copenhagen of Some Mysterious Move on Part of Germany

LONDON, Oct. 14.—A dispatch from Copenhagen to The Daily News, says: "What is the big surprise the Germans have for England, which they repeatedly talk about? Copenhagen is full of rumors, purporting to come from German officers in private letters and dispatches. The Kiel Canal is again closed to neutral ships, and the 'big surprise' rumors are received by pretty influential and reliable persons in private dispatches from Kiel, although it is difficult to understand how they have passed the censor.

"The reports say that the Germans are experimenting with new heavy guns fixed on a dreadnought and that the canal is closed for the purpose of conducting firing practice."

DAYS OF FEAR IN GAY OSTEND

People in Panic Before German Invasion Crowd on Boats Crossing to England — Many Inland Refugees.

AEROPLANE'S FLIGHT ADDS TO TERROR

Virtually No Obstacle in Way of Modern Huns Reaching City—Grievous Plight of the Wounded Soldiers.

OSTEND, via London, Oct. 14.—Ostend's fate hangs in the balance. The Government has left; King Albert and the main military army left on Tuesday, and 60,000 panic-stricken people await the action of the Germans, who are known to have a strong force within twenty miles of the city. The inhabitants are fleeing as fast as ships can be provided to carry them to England. Hospitals were emptied today, and the docks were lined with injured soldiers. Hundreds were carried on litters, while those less seriously wounded hobbled on canes and crutches, supported by Red Cross nurses, doctors, nuns and priests.

Aeroplane Causes Terror

The wounded were given preference. While 25,000 struggling people were massed upon the docks and terminals attempting to find places on the refugee ships, a German Taube aeroplane flew over the harbor and struck terror into those below, many of whom had come here from Antwerp and who feared the airship might drop bombs on the docks and on the great glass sheds which covered the railway and steamer terminals. The Belgians guarding the docks opened fire on the airship, and continued the fusillade for ten minutes. This created still further consternation among thousands of women and children, many of whom had sat for three days on the floor of the great terminal sheds, their nerves at the breaking point.

Escape is cut off from all sides by land, and thousands were still gathered on the docks when the last relief ship left late this afternoon. No steamers leave Ostend at night because of the danger from mines. Still the crowds swarm the piers awaiting the dawn and more ships. Even the refugees who managed to find deck space on the crowded transports were not relieved of the terrible strain under which they have been laboring, for the watchful Taube flew over the steamers, observing their movements as they sailed out of the harbor.

The aeroplane did not drop bombs, however, as one had on previous days, when both the civil and military hospitals were so narrowly missed that the Belgians charged that the Germans were aiming at the hospitals.

Night of Fear

Last night was one of terror to the residents of Ostend, and the thousands of refugees fleeing before the German invasion. Wounded soldiers were brought here by the score from Ghent. It is reported that they were engaged

Continued on Page 2, Col. 3

BRITAIN TREATS PRISONERS WELL

Mr. Chandler Hale, Official of U. S. Embassy, Speaks of His Visit to the Detention Camps in England.

LONDON, Oct. 14.—The generous treatment by the British of German prisoners formed the basis of an interview given by Mr. Chandler Hale yesterday on his return from a tour of inspection of three British detention camps. Mr. Hale, who was formerly United States Assistant Secretary of State, has charge of the American embassy's Austrian branch. He is the first American permitted to visit the enclosures in which Great Britain's hospitality is extended to enemy aliens.

Altogether he saw more than 4,000 prisoners, of whom less than 1,000 had been combatants; but these figures, he said, represented only a small percentage of the total number incarcerated by the British authorities. The comforts provided for captives, according to Mr. Hale, amounted in most cases almost to luxury, particularly where officer prisoners were concerned. Mr. Hale said:

"The feature of the tour which I should like to emphasize is that not a single complaint of any kind was made to me by any prisoner. All willingly conceded how delightfully they were treated, and I knew they were sincere about it, because I had the fullest opportunity of conversing with them beyond earshot of British officers.

"Another curious thing was that not one asked me about the war, which was tactful, for they are not permitted to see newspapers or get any information about the war, and had they asked me, I should have had to decline to answer.

"I was informed, incidentally, that officer prisoners had heard of the fall of Antwerp, and that efforts were being made to discover how the news had leaked through to them.

"It is interesting to note the difference between German and Austro-Hungarian prisoners. The latter take imprisonment lightheartedly, but the Germans were inclined to be cantankerous, and to grumble loudly against fate."

The first camp that Mr. Hale in-

TSING TAU OPERATIONS

Agreement Made to Remove Non-Combatants From Danger Zone—Will Be Taken Out Today

NEW YORK, Oct. 14.—The East and West News Bureau tonight gave out a cable message from Tokio dated October 14 as follows:

"Acting upon the message sent by the Japanese Emperor to move the non-belligerents from the danger arising from siege operations, the German and Japanese envoys met on October 13. As the result of their negotiations the American consul, with a number of women and children of German nationality, are to leave Tsing Tau on October 15, and are to be sent to Chinan-Fu on the Shantung Railway, now under the control of the Japanese army.

"The Japanese peace society gave, on October 13, a dinner at the Nippon Club, Tokio, in honor of Mr. Allen, president of the California peace society. It was attended by Baron Shibusawa, Baron Sakatani, Dr. Soyeda, Mr. Nakano and other prominent men, and a toast was proposed, amid cheers, to the friendly nations on both shores of the Pacific."

Colonial Contingents

LONDON, Oct. 14.—Sir Edward Ward has been appointed to represent the War Office in all matters connected with the general comfort of the colonial contingents, and in administrative action in connection therewith. Communications should be sent to Scotland House, New Scotland Yard.

Captured French Priests

LONDON, Oct. 14.—The German Emperor, says a Berlin dispatch to Reuter's Telegram Company, has approved the suggestion of the Archbishop of Cologne to treat all captured French priests as officers, though they may be serving as privates.

PROVINCE'S GIFT STARTS ON WAY

Canned Salmon Shipment Leaves Vancouver by Special Train for Montreal—Given Best Despatch.

VANCOUVER, B. C., Oct. 14.—British Columbia's gift to the Empire as an assistance during the times of stress occasioned by the war left Vancouver today, the special train containing the canned salmon pulling out of the yards of the Canadian Pacific Railway at 4 o'clock, its departure being witnessed by an interested group of Government officials, who had been engaged in assembling the shipment, men prominent in the salmon canning industry, and officials of the C. P. R., who had done everything in their power to facilitate the dispatch of the gift.

Twenty-three cars made up the special freight train which will carry the shipment to Montreal, and the cars contained exactly 22,305 cases of canned salmon. Each car bore banners announcing that the contents represented British Columbia's gift to the Empire, and that it was the banner product of the Coast, canned salmon. Each can bears a special label, bearing the arms of the Province and stating concisely what its contents are, as well as tables showing the food values of the salmon, prepared by canning, as compared with other foods.

The use of this salmon in the Old Country, in addition to being a factor in alleviating distress, is expected to do a lot towards calling attention to the consumers of the value of canned salmon as a food.

The shipment is due to be dispatched from Montreal for England on November 10.

Mr. D. N. McIntyre, Deputy Minister of Fisheries, Victoria; Inspector Cunningham, of New Westminster, representing the Dominion Fisheries Department, and Mr. W. D. Burdis, secretary of the B. C. Salmon Packers' Association, were among those present to witness the departure of the shipment.

"THE SOLDIERS OF THE KING"

Are in the fighting line.

THE SUBJECTS OF THE KING

Are in the giving line.

WHERE ARE YOU?

If your name is not already on the list place it there today.

IT IS YOUR SIMPLE DUTY

The sailors and soldiers of the Empire are doing theirs.

For men who are giving their lives I cannot do less than the utmost. I can help during the war to

Support the wives, children and dependents of those on active service and of those killed in war;

Assist the wives, children and dependents of those plunged into want by the war.

My offering can be devoted to the above purposes by making cheques and orders payable to

THE VICTORIA PATRIOTIC AID SOCIETY

POSITION GOOD ON ALLIES' LEFT

Enemy Turned Out of His Positions in Semicircle Around Lille, and Flanking Movement Fails.

LOSSES ARE HEAVY IN SOME ENCOUNTERS

Belgian and French Forces Believed to Have Effected Junction—Typhus Reported Among German Troops.

LONDON, Oct. 15.—Telegraphing on Wednesday morning from Calais, The Daily Chronicle's correspondent says: "The position on the Allies' left wing, which is now the most important section of the long battle line, grows daily more satisfactory.

"The fighting around Lille has been extremely satisfactory to the Allies. The Germans have been turned out of the semicircle of positions which they held around Lille and the corner of French territory which juts into Belgium there.

"The Germans have been pushed back as far as Courtrai (in Belgium, twenty-six miles southwest of Ghent), where they are entrenching. It appears that they will make a stubborn endeavor to hold the line of Blankerghe, Bruges and Courtrai.

"It was the German intention to make a dash on Calais coincidently with the taking of Antwerp. In accordance with this plan, they advanced in force on Hazebrouck, Mont Cassel and Saint Omer.

The Allies' guns near Mont Cassel mowed down the oncoming Germans, who fell back, leaving several hundred wounded, over the Belgian border.

"During the fighting near Saint Omer a bomb from a German aeroplane killed three persons and injured six others. A French aeroplane pursued the German bomb-thrower and killed the pilot and his companion with rifle shots."

Struggle at Roye

LONDON, Oct 15.—A Paris dispatch to The Daily Mail says:

"During three weeks of violent fighting between Roye and Lassigny, Roye itself has been taken and retaken twelve times, and has been the scene of the fiercest hand-to-hand encounters, while all the villages in the vicinity have constantly changed hands.

"A French infantry officer who arrived in Paris today reported that on the day Roye was recaptured from the Germans for the last time the French surrounded and captured, eight miles outside the town, 2,000 infantry and cavalry.

"The Germans experienced an unpleasant surprise at Roye from the French infantry and artillery, and, after the French gunners had battered them, a German infantry battalion and a cavalry regiment surrendered.

"All along the entrenched line from Rheims to Verdun the aviators are doing valuable work. The Germans continue to make great use of the captive balloons, which are beyond range of the Allies' guns. They usually carry three

Continued on Page 2, Col. 4

CANADIAN FORCE IS IN ENGLAND

Arrival of Flotilla of Transports and War Vessels Officially Announced—Second Contingent Arrangements.

OTTAWA, Oct. 14.—Word that the Canadian troops had safely landed in England was received by Sir Robert Borden this afternoon. The news was contained in a brief cablegram from Hon. George H. Perley, who announced that the flotilla had arrived at Plymouth. The cablegram was received while the cabinet was in session, and the Ministers were delighted to hear that the Canadian troops had safely made the ocean trip.

Previous Report Erroneous

About a week ago the British papers announced the arrival of the Canadian forces, and there were cables giving circumstantial accounts of the landing of the Canadian troops. The Canadian militia authorities knew the news was incorrect, but thought it possibly was sent out by the British War Office as a blind so as to ward off any German submarine attack. As a result, the authorities kept "mum." It turned out that a local correspondent at Folkestone mistook the arrival of a boatload of British and French reservists as the first arrival of the Canadians. The British War Office, knowing the item was harmless, allowed it to pass, which gave it an authoritative appearance.

The Canadian flotilla sailed from the Gulf of St. Lawrence a week ago last Thursday, so that they were thirteen days en route.

It was expected that it would take about two weeks to make the trip.

There were thirty-one transports, with eleven cruisers and battleships, and many of them were of slow speed. As they wanted to keep together, and intended to travel very slowly at night, it was figured that it would take two weeks to reach the Old Land. At Plymouth is not far from Salisbury Plain, it is expected that they will go direct to the training grounds.

Second Contingent

The following official announcement was made tonight.

Continued on Page 3, Col. 4

PRISONERS AT NISH

Many Austrian Captives, of Slav Origin, Express Desire to Join Fighting Ranks of Servian Army

NISH, Servia, Oct. 14.—In every street, avenue and alley in Nish one can see groups of soldiers dressed in grey-blue Austro-Hungarian uniforms. They are war prisoners, and are escorted to the public works by one or two Servian soldiers.

This procession often is accompanied by a squad of the defence force, little Servian boys, ten and twelve years old, armed with willow riding whips, proudly marching behind and fully alive to their importance and merit, which they endeavor to impress upon the public mind by singing patriotic songs. Most of the prisoners are of the Slav element of the Austro-Hungarian army. There are very few Germans among them. Many prisoners have expressed the desire, many have even sent official applications to the authorities to enter the fighting ranks of the Servian army in order "to deal out just reckoning for the hardships we endured from German culture."

A wounded Croatian officer who succumbed, exclaimed before he died: "Long live the great Servian King."

Seizing Enemy's Goods

BORDEAUX, Oct. 14.—M. Briand, the Minister of Justice, has instructed all the district attorneys in France to seek out and sequestrate all goods and funds belonging to German and Austrian firms, many of whom, it is declared, have either formed French stock companies or taken shelter behind third parties of French nationality. M. Malvy, Minister of the Interior, has asked the prefects to cooperate with the attorneys, and has called upon the members of commercial and trade associations to assist.

GERMAN STORY EVOKES REPLY

Falsehood From Berlin Regarding Alleged Agreement Between Britain and Belgium Being Reached in 1906

LONDON, Oct. 14.—The British Foreign Office today dispatched to all representatives of the Government the following reply to a statement made by the Nord Deutsche Allegemeine Zeitung and transmitted to America by wireless from Germany:

"The story of an alleged Anglo-Belgian agreement of 1906 published by the German press and based on documents said to have been found in Brussels, is only a press edition of a story which has been produced in various forms and denied on several occasions. No such agreement has ever existed, as Germans well know. General Grierson is dead, and Colonel, now General Barnardiston, is commanding the British forces before Tsing Tau. In 1906 Gen. Grierson was on the general staff at the War Office and Col. Barnardiston was military attache at Brussels. In view of the solid guarantee given by Great Britain to protect the neutrality of Belgium against violation from any side, some academic discussion may, through the instrumentality of Col. Barnardiston, have taken place between General Grierson and the Belgian military authorities as to what assistance the British army might be able to afford the Belgians should one of her neighbors violate that neutrality. Some notes with reference to this may exist in the archives at Brussels.

"It should be noted," says the reply, "that the date, namely, 1906, was the year following that in which Germany had, as in 1911, adopted a threatening attitude towards France with regard to Morocco, and in view of the apprehensions existing of an attack on France through Belgium, it was natural that possible eventualities should be discussed. The impossibility of Belgium having been a party to an agreement of the nature indicated, or to any design for violation of Belgian neutrality, is clearly shown by repeated declarations that she has made for many years past that she would resist to the utmost any violation of her neutrality, from whatever quarter and in whatever form such violation might come. It is worthy of attention that these charges of aggressive designs on the part of the other Powers are made by Germany, who, since 1906, has established an elaborate network of strategical railways leading from the Rhine to the Belgian frontier through a barren, thinly populated district, deliberately constructed to permit the sudden attack on Belgium which was carried out two months ago."

University Offer Accepted

LONDON, Oct. 14.—The University of Louvain has accepted the offer of Cambridge University to allow the use, so far as space permits, of its libraries, laboratories and lecture rooms during the present crisis without the payment of the usual fees, in order that the work of the Belgian university as a corporate body may be carried on without breach of continuity. The senate of Cambridge will be asked on Friday to conform the arrangement.

BATTLE ALONG EXTENDED LINE

Russian and German-Austrian Armies Facing Each Other on Front of About Three Hundred Miles in Length.

CONFLICT HAS ALREADY BEGUN

Success in Minor Engagement Is Announced From Petrograd — Servians Repulse Austrian Attacks.

PETROGRAD, Oct. 14.—The German line is now defined only as reaching from the neighborhood of Warsaw—that is, of course, well to the west of the capital, parallel to the course of the River Vistula and San to Przemysl and further south to the Dniester. The distance in a straight line is about 220 miles, but the real line of frontier occupied is nearly 300.

The commander-in-chief announces that the battle is developing throughout this enormous extent. One may, therefore, expect to hear all kinds of news during the next few weeks, for on a front of such extent successes and reverses alternates freely without offering much of a clue to the real progress of the conflict. In a modern battle success or defeat on a large or small scale can be appreciated only by those who are in the secret of the strategic scheme.

The Germans are now about 100 miles inside the Russian frontier, and that distance or more from their nearest base. The Russians have drawn back towards their base,

Russians Report Success

PETROGRAD, Oct. 14.—The following official communication from the general staff was issued tonight:

"On the left bank of the Vistula, along the roads leading from Warsaw to Ivangorod, our troops on October 13 successfully pressed back the German forces. One of our regiments captured two German companies.

"Fighting continues to the south of Przemysl. There are no important changes on the other fronts."

Servians Resist Austrians

PARIS, Oct. 14.—A dispatch to the Havas Agency from Nish, Servia, dated October 12, says:

"Yesterday, on the front between Svornik and Losnitza, the enemy began a violent artillery fire on the Servian left wing. The Austrian fire was rapidly silenced by the Servian artillery."

Two Attacks Repulsed

LONDON, Oct. 14.—The following Servian official statement, given out in Nish, has been received by the Reuter Telegram Company: "On Sunday night the enemy attempted two attacks on the extreme right wing of the front between Svornik (Bosnia) and Losnitza (Servia). The attacks were repulsed with heavy losses to the Austrians.

"On Monday morning they attacked the Servians twice on the left bank of the Save River, but were repulsed on each occasion with great loss. Our artillery, by its accurate fire, spread panic in the ranks of the enemy."

Officers Changed

PARIS, Oct. 14.—A Havas Agency dispatch from Basel says:

"General Barsevit has been appointed commander of the third German army by the Emperor, according to intelligence reaching her. Admiral von Schiger has been assigned to command the naval forces at Antwerp.

"General von Auffenberg, who has been ill, is not to return to the front."

Railway Dividend Postponed

LONDON, Oct. 14.—The Great Western of Brazil Railway Co., Ltd. has announced that, in view of the abnormal conditions in Europe and in Brazil, the board have considered it desirable to postpone the payments of the interim dividend, in respect to the current year's operations, on preferred and ordinary shares.

GERMAN LAUNCH SEIZED

Craft of Suspicious Appearance Taken by Military Authorities and Police at Comox

NANAIMO, B. C., Oct. 14.—An important capture was made on the Comox spit at Union Bay yesterday, when Captain G. R. Bates, assisted by the Provincial Police, and acting under instructions from Victoria, captured a 90-ton gasoline launch, supposedly German-owned, at the same time arresting the crew, two men and a woman, all by the name of Kohfs. The launch had about nine months' supply of provisions aboard, carried auxiliary engines and was equipped with wireless apparatus. It is supposed that the crew were intercepting messages from the wireless station at Cape Lazo. The launch was named the Empress Ninth.

Two other men, also named Kohfs, all apparently being members of the same family, were arrested at Campbell River by Captain Bates. They are charged with being German spies.

FIFTY YEARS AGO TODAY

(From The Colonist, October 15, 1864.)

Return of the Sutlej.—H. M. S. Sutlej, with Commander and Mrs. Denman aboard, dropped anchor in Esquimalt Harbor last evening. The Sutlej, Devastation and Forward have for some time been after the murderers of Captain Stephenson and crew of the Kingfisher, whom they succeeded in capturing all but the chief who has escaped to the woods. The Sutlej brings with her five large war canoes taken from rebellious tribes, several more were destroyed.

Jolly Tars.—On Thursday evening a wagon load of bluejackets was passing the Hotel De France, when they observed Commander Pike, R. N., standing on the porch with some friends. They at once stopped and greeted their superior with three hearty cheers, followed by the chorus, "For He's a Jolly Good Fellow" given with a will. Such a display of kindly feeling must have been highly gratifying to the recipient.

Wealth of San Francisco.—The assessment rolls of San Francisco give the following figures, illustrative of the city's wealth. Total value of real and personal property, 1862-3, $46,521,700; 1863-4, $77,120,000; 1864-5, $96,726,144.11. The increase in the past year has been largely due to real estate. This item has swollen from $24,071,537 in 1863 to $43,702,907 for the current fiscal year.

HEADMASTER—J. C. Barnacle, Esq. (London Univ.)
For particulars and prospectus apply to the Headmaster.

Mount Tolmie, Victoria, B.C.

A Cut in Price

Is frequently accomplished at the expense of quality. While war conditions have altered the selling price of many things

G. Preller & Co.'s

Clarets, Sauternes and Burgundies

Still remain the same—Price unchanged—quality unrivalled.

Preller's Claret—a dinner wine that cannot fail to please the most exacting—perfectly aged, healthful and palatable.

Preller's Sauturne is a true test of the vintner's skill—delicate, yet full flavored

Preller's Burgundy is as rich as fine old port—yet refreshing and invigorating as champagne.

ADVANTAGE OF NAVY'S CONTROL

Allies Able to Draw Reservists and Volunteers From America, While Enemy's Men Cannot Cross Ocean.

NEW YORK, Oct. 14.—Half a million men, Austrians and Germans, are registered at the consulates of their countries in the United States ready to return to Europe and bear arms as soon as a means of transportation for them becomes available, it was announced at the Austro-Hungarian consulate here today. Ninety-five per cent of them have had military training, it was said. Tomorrow will be the last day when Austrian subjects in this country may register under their Government army order granting full amnesty to all who deserted or fled from their country to escape military service. More than 1,000 Austrians registered here today in person or by letter or telegram.

With the fleets of the Allied powers virtually controlling the Atlantic, French, Belgian and English reservists and volunteers are leaving New York in great numbers, but Fritz Fischerauer, Austrian vice-consul here, said there appeared little likelihood that any great part of the half-million Austrians and Germans would be able to sail very soon.

A call to the colors of all former non-commissioned French officers up to the age of 48 years was issued today by Basseront D'Englade, French consul-general here.

The usual age limit for active service in France is 41 years. Raising this limit now, it is explained, was due probably to the high death rate among officers in battle and the necessity for a big staff to train recruits.

DAYS OF FEAR IN GAY OSTEND

Continued From Page 1

on Monday near Ghent in a serious battle with the Germans. The Allies are said to have had a small force against a large German force, and were obliged to withdraw toward the west. Consequently there is virtually no obstacle to the German advance on Ostend.

Firing in the direction of Ghent was heard plainly in Ostend on Monday and on Tuesday. The terrified refugees who were at the siege of Antwerp blanched as they listened to the bombardment and increased the fear among the residents of Ostend by describing the horrors attending the fall of that fortress.

Many of the business houses in Ostend closed yesterday, and professional men, merchants and hotel-keepers joined the throng that did not leave the waterfront for fear of losing places in the ever-growing line of men, women and children clamoring for a chance to escape.

All taxicabs and cab horses were taken by the army long ago, so there was little means of transportation. The tram cars were commandeered by the hospitals, and civilians had little chance to ride. The hotels near the docks which remained open were crowded with refugees who had money, and who begged for the opportunity to rent even a chair.

Few Found Sleep

Tuesday night brought insistent reports that the Germans would enter Ostend on Wednesday at dawn, with the result that few persons in the city slept. Before daybreak every street of Ostend was alive with refugees making their way to the waterfront. Hundreds of fishermen took their families and friends away in their small boats, which sailed out of the shipping basin in a steady stream, loaded down with frightened women and children carrying their personal effects wrapped in tablecloths and blankets.

The failure of the Germans to arrive at daybreak afforded only a slight relief to the anxious crowds. Rumors were current that German cavalry was less than twenty miles away, and the appearance of the airship was taken as an indication that the Germans were perfecting their plans for entering the city.

Practically no Government of any sort remains at Ostend; the departure of King Albert and the military headquarters left only the civil governor and policemen, who are attempting to preserve order, and there is lack of direction, as the burgomaster, head of the municipal government, has also left.

Crowds in Panic

The crowds mass about the gangways of the vessels, making the work of embarking the refugees more difficult. Women and children are trampled in stampedes that follow almost every rumor. Bundles of clothes, trunks and bags are stocked in confusion, preventing the free movement of the crowds.

"Women and children first," is the announcement the ship officials make in Flemish and French as the gangways are lowered. This rule has been enforced for several days, but with the greatest efforts, women clinging to their husbands and other male relatives, defiantly blocking the gangways. All attempts to persuade the refugees to drop their bundles and hasten aboard the boats are unavailing.

"It is all we have left," is the pitiful reply of aged and infirm women, staggering under heavy baggage.

Ostend today is amazingly unlike the gay Atlantic City of Belgium which formerly received most of the fashionable pleasure seekers of the world. The shutters are closed on the great hotels facing the splendid bathing beach, where rich and poor alike, residents of Ostend and refugees of all classes from the interior of Belgium are huddling together. But there are others which afford comparative comfort to many of the women and children, whose only food for days has been bread and coffee provided by the committees which are attempting to keep down the hunger of the people in spite of the fact that all the ordinary activities have been suspended. Now even bread is becoming very scarce.

The relief boats to Folkestone are so crowded and hurried that they have little time to consider the question of meals, and frequently they are unable to offer even a cold lunch to the refugees crowded into every available inch of deck space.

Attention to Wounded

Marked attention is shown wounded soldiers by the refugees, who gather about the litters on the docks and on shipboard offering cigarettes, chocolate and other delicacies which the almost empty lunch baskets afford.

Many of the soldiers speak only Flemish, while their nurses know only English and French, and must rely on refugees who know all three languages. Little children often bridge the language chasm, and with rare sympathy assist the nurses.

Belgian, English and French soldiers alike have endured such hardships during the recent campaign that the uniforms of the wounded soldiers are in tatters. This is especially true of the Belgians, whose ones bright red and blue uniforms are now faded and unkempt.

"My poor Belgian boys have such disreputable looking uniforms when they come to me," a Red Cross surgeon remarked, "that I try to get some sort of civilian clothes for them to tone them up. Of course we cannot get new uniforms now, but the poor chaps are disheartened enough by their injuries without hobbling about in rags."

The same surgeon said that in his opinion the entire Belgian army should have six weeks' respite to recover from the shocks of its constant service under unprecedented hardships.

American Consul Henry A. Johnston has the affairs of the Allies under his care and is on the docks day and night, assisting his charges. Americans are not numerous at Ostend, but a few have come in daily from Antwerp and Bruges.

The British Consul left Ostend several days ago, the Consuls representing the other Allies accompanying him.

Fog Adds to Fear

Several persons were pushed off the docks by the surging masses, but all were rescued by the guards. A dense fog last night cast further gloom over the dimly-lighted piers lined with refugees trying to sleep. The fog guns were kept firing to warn fishing boats off the reefs. Every report startled the refugees, who were ready to believe that the expected raid of the Germans had begun.

A Red Cross doctor, provided with an ambulance, and assisted by Boy Scouts, has been working without cessation on the docks caring for the sick and exhausted. Several children have broken their arms by falling over the scattered luggage. Constant calls are made for attendance upon women who faint through sheer exhaustion or fright, especially among the older women, who believe that the arrival of the Germans would mean the end of themselves and their families.

Among the wounded beings were several good singers, who relieved the strain of the situation on Tuesday night with folk songs, in which a great chorus joined. One young chap, whose knee was badly wounded in a recent engagement, proved a good yodler, and amused the sleepless crowd which gathered about his litter with Tyrolean airs that called forth great applause in marked contrast to the wails and moanings of the nerve-racked women.

POSITION GOOD ON ALLIES' LEFT

Continued From Page 1

or four observers, who have telephonic connection with the German general staff, and report all changes in operations. Kites are also employed, which enable the Germans to estimate with exactitude the altitude of Allies' aeroplanes, so that these aircraft are forced to mount very high to escape shells.

Forces Joined Hands

PARIS, Oct. 15.—The exact positions of the bulk of the Allies' armies are kept secret, but is is believed that the forces in France and Belgium have joined hands since the fall of Antwerp.

The German cavalry around Hazebrouck, France, which masked a movement of the infantry, suffered a rude check from the Allies before the battle of Ypres, because the Germans were unable to operate freely in masses, owing to the nature of the ground, where they were virtually at the mercy of the Allies' infantry and artillery.

Some lively street fighting occurred in Hazebrouck, on which the Germans made a daring raid, while at Arras the town hall was burned to the ground during a bombardment.

The section where encounters are severest has suddenly changed from Roye to Lassigny, where the Germans tried to make a breach through the Allied lines. The battle, however, is still progressing about Roye, which has been taken and retaken at least twelve times.

A Deadly Enemy

LONDON, Oct. 15.—"Typhus has broken out in the German lines, particularly to the north of Soissons," says a dispatch from Paris to the Exchange Telegraph Company. The French are taking the utmost precautions to prevent the disease spreading to their ranks. The troops already have been vaccinated twice.

German Soldiers Rebellious

LONDON, Oct. 15.—The Daily News says that on Friday last German soldiers entered Holland near Rosendaal. The officer in command refused to submit to internment and a fight ensued, a dozen Germans being killed or wounded.

Germans at Bruges

LONDON, Oct. 15.—The Daily Mail's Flushing correspondent telegraphing on Wednesday, says 200 German cyclists arrived at Bruges at 1 o'clock on Wednesday afternoon.

Official Report

PARIS, Oct. 14.—The official communication issued tonigat by the War Office says:

"The reports received tonight, which are in very general terms, indicate no important changes in the situation."

LONDON, Oct. 14.—The official press bureau tonight issued the following statement:

"British troops have been engaged with the enemy towards the left of the Allied line (in France) with the result that the Germans have been pressed back slightly on their flank.

"The nature of the country in which the fighting has been conducted, being a mining centre, makes rapid progress difficult."

Suffering in Switzerland

LONDON, Oct. 14.—The Berne correspondent of The Morning Post, writing under date of October 9, says: "A feature of the present war is the havoc it is working in neutral countries which have no concern with it, but, if they are encircled by belligerents, as Switzerland is, suffer from it fully as much as the powers involved, at any rate economically. Customs receipts, post office, federal railways or private lines, and almost every enterprise in Switzerland, Government and private alike, tells the same lamentable tale of falling dividends and decreased receipts."

Flour imports in Egypt increased from $2,500,000 during the first four months of last year to more than $4,000,000 in a like period this year.

COMFORTS FOR MEN AT FRONT

Miss Merritt and Other Canadian Ladies to Organize Branches of Queen Mary's Needlework Guild.

LONDON, Oct. 14.—The organization of the "Queen Mary's Needlework Guild" in Canada is the object of a trip being taken by Miss Catharine W. Merritt, of St. Catharines, Ontario, who, accompanied by the Misses Denison, Weller and Hodges, sails by the Furness liner, Digby for St. John's, Nfld. From the Ancient Colony they will proceed to Halifax, Montreal and Toronto.

The main object of the Canadian branches of the guild will be to supply the Canadian War Contingent Association with clothing and comforts for the Queen's Canadian Military Hospital at Shorncliffe. Any surplus will be distributed generally to the men at the front.

Miss Merritt, who is a keen Imperialist and a practical organizer, has had the honor of receiving her commission for this task direct from the Queen, who authorized her to extend Her Majesty's patronage to the Canadian branch. She carries with her 1,000 badges of the guild, the gift of Lord Northcliffe, and the proceeds of their sale will go to the funds of the guild.

The provisional committee of the Canadian work which has been formed here includes Mrs. G. H. Perley, Lady Strathcona, Lady Osler and Mrs. Armour.

Miss Merritt and her companions were in Germany when the war broke out, and escaped by way of Switzerland and Paris.

BRITAIN TREATS PRISONERS WELL

Continued From Page 1

spected was an open air enclosure. The camp was arranged in streets of tents, twelve prisoners sharing each tent. The tents had wooden flooring. Each occupant of a tent had two blankets, and drew rations equivalent to a British soldiers, except that he gets less meat and more bread. Mr. Hale said that each tent elected a captain, and each street had a chief captain, empowered to enforce discipline, select cooks, etc. Practically the only work the prisoners do is chop wood, wash clothes and cook food. Their chief pastime seems to be taking shower baths, and there is an unlimited supply of soap and water.

The only remark touching on the war made to Mr. Hale was a statement by a private of a German guard regiment, who said: "I was captured within twenty miles of Paris."

"Among the Austrians were naval officers, who had been captured while trying to return home from South America. These officers had servants selected from non-belligerent prisoners to attend to their wants. They have a regular mess, choosing their own food, subjected to the approval of the British authorities. They draw half-time war pay, according to rank, and they are permitted to receive any money sent them through American embassy channels.

"Wine, or any other refreshments, may be purchased by these officers, although in other camps alcoholic drinks are forbidden. Each officer has generally a room to himself, and is liberally supplied with clothes. They insist on wearing their uniforms, however. They can play games, have ample space for exercise, plenty of books, and, altogether they live in conditions closely approaching luxury."

FRENCH PORTS ARE PROTECTED

Continued From Page 1

Portugal ever should be called upon to come to the assistance of Great Britain. However, the sympathy of that country is known to be with the Allies, and she has had some small differences with the Germans in Africa.

A short time ago a German officer, suspecting that the Portuguese were instigating unrest among the German natives of East Africa, crossed into Portuguese Nyassaland and killed a Portuguese sergeant and four natives.

The former German cruisers Goeben and Breslau, which sought refuge in Turkish waters, may be responsible for involving Turkey. Although these ships were ostensibly sold to Turkey, they are still officered and manned by Germans, and have been cruising off the Roumanian and Bulgarian coasts of the Black Sea, where the Russian Black Sea fleet has been for some days. Should the Russian warships sight the Goeben and Breslau an engagement would be possible.

General Botha, Premier of the Union of South Africa, has sent a force to deal with Colonel Maritz and the rebels under his command. According to an official telegram from the South African Government, the rebellion is not so serious as was feared. It is said that the men under Maritz do not exceed 500, including Germans, and that as the Dutch farmers are flocking to General Botha's standard, Maritz is not likely to receive any large acquisitions.

OCCUPATION OF GHENT

Bombardment Threatened by Germans if Town Was Not Surrendered—Garrison Two Thousand

BELGIUM, Oct. 14.—A Belgian correspondent of The Daily Mail says he hears the civil authorities of Ghent were told that if the soldiers in that city did not surrender instantly the place would be bombarded.

"Apparently a couple of thousand Germans will garrison Ghent," the correspondent adds, "but Julius A. Van Hoe, the American vice-consul, has gone to Brussels to arrange, if possible, for these troops to be quartered within certain limits, with a view to avoiding possible disagreements between the soldiers and inhabitants.

"Immediately south of Ghent there was stiff fighting Monday and yesterday, with the south-going German column heavy losers. It is reported that the famous Death's Head Hussars have suddenly appeared in this region."

Saskatchewan Remounts

REGINA, Oct. 14.—The purchase of 1,147 horses by the Provincial remount commission for presentation to the British Government is recorded in the reports received.

VISIT PAID TO RUSSIAN FRONT

Report Sent by Prof. Bernard Pares, Official Representative of British Government With Czar's Armies.

LONDON, Oct. 14.—The official bureau issued today the first report of Bernard Pares, professor of Russian history and literature at the University of Liverpool, who was appointed by the British Government to accompany the Russian armies in the field. The report follows:

"We reached Russian headquarters as the bugle sounded for evening prayer. The atmosphere here is one of complete simplicity and homelikeness. Our small party included several distinguished journalists from the more important Russian newspapers, as well as several eminent American, French and Japanese press representatives.

"We found the grand ducal train on a side line. It was spacious and comfortable, but the appointments were simple. We were received by the chief of the general staff, one of the youngest generals of the Russian army. He spoke very simply of military affairs, and expressed belief in the full co-operation of the public and press.

"The Grand Duke then entered. His light step, bright eye and imposing stature were well shown up by his cavalry uniform.

"Speaking to the newspapermen, the Grand Duke said he regretted that he would not be able to show them all he would like. Absolute silence regarding military secrets, dealing with the plan of campaign, was an essential necessity. The Grand Duke then told his hearers that they would be sent to Lemberg.

"We were then invited to join the general staff for dinner in their restaurant car. There were no formalities. A notice forbids handshaking in the restaurant under a fine of threepence for the wounded. There were hardly any decorations worn by members of the party. There was no alcohol on the table, in accordance with the temperance edict by the chief of the general staff.

"The facilities given us are all that can be granted at the present state of operations. Today, October 12, I visited several wounded prisoners from the Austrian front.

"These prisoners evidently felt nothing antagonistic. They struck me as simple men, who had fulfilled their duty without either grudge or any distinctive national feeling.

"I spoke with several Russians who had been badly wounded in their first days of fighting, especially at Krasnik.

"At the beginning of the war the nearness of the enemy was felt with much anxiety, but now there is an atmosphere of assurance. The Grand Hotel and several public buildings are converted into hospitals, where the Polish language largely is used.

"The Emperor visited all the chief hospitals, and spoke to many of the wounded, distributing medals in such numbers that his supply ran short. His Majesty received a Jewish deputation and spoke with thanks of the sympathetic attitude of the Jews in this hour so solemn for Russia.

"The general feeling may be described as like a new page in history. Among the Poles, educated and uneducated, enthusiasm is general. This is all the more striking because in no circumstances could Vilna be considered as Polish. Vilna shows all the aspects of war conditions, but the country around the town is being actively cultivated."

EARLY COMMENCEMENT OF NIGHT CLASSES

School Board Has Programme Practically Completed—Sixteen Subjects Are to Be Taught.

The Winter course of night classes to be inaugurated under the auspices of the Board of School Trustees will commence on the evening of the 26th inst. Municipal Inspector Paul stated at the regular monthly meeting of the Board held last evening that he expected to have all arrangements made so that the classes may be commenced on the above date. Great interest is being shown in the course, last year's venture along similar lines having demonstrated the fact that there are a large number of persons who are greatly benefited by the opportunity for further means of education. The programme, while not definitely settled, will comprise about sixteen subjects at first. It has been found inadvisable as yet, owing to the comparatively limited amount at the disposal of the Board, to include in the syllabus certain subjects of a technical nature which it was hoped could be taught. But subsequently these subjects may be added. Ample notice of the course and the programme to be followed will be given in the press.

Inspector Paul also reported upon the number of pupils whose parents reside outside the city limits and are not taxpayers. There are seventeen attending the North Ward School, ten at the Quadra School and eighteen at the Burnside School. In addition there are fourteen whose parents reside outside the city, but who have not yet responded to the request for information as to whether they are taxpayers. Thirty-seven pupils who come from outside the city limits, but whose parents are taxpayers in the city are also attending the schools. This latter class are entitled to attend. The former class are, however, not entitled to accommodation, but apparently are forced to come into the city because of the failure of the Saanich Municipality, in which they are all living, to provide school accommodation.

The inspector's report will be referred to the next year's Board for action, and it may be that the Municipality of Saanich will be billed for the pupils from that section now attending the city schools whose parents are not taxpayers.

Tenders for the erection of the proposed new manual training and domestic science school for the South Park School will be called for. The estimated cost of the structure is $8,000.

The communication from the city clerk suggesting that the Board this year and next exercise the utmost economy in expenditure owing to the necessity of retrenchments in all departments, brought forth the question from Trustee Jay as to what extent the Council is following its own advice. He pointed out that so far as this year is concerned the Board has consistently followed this course, having decided to eliminate the automatic salary increases, but next year's outlays must be decided by next year's Board. The City Council will be informed that it is the invariable rule of the Board to keep expenditures down to the lowest point consistent with efficiency.

The sanction of the Board to the formation of a cadet corps for the South Park School will be given, and the whole question of the cadet organization and equipment will be reported upon later by the building and grounds committee.

PANTHER SHOT AT HILLIER

Exciting Adventure of Nine-Year-Old Boy—Animal Brought Down With Rifle

A large panther was shot at Hillier a few days ago by Mr. J. J. Clarke, who resides in the district. The animal measured seven feet in length, and was an unusually fine specimen. The description of the capture as given by Mr. Clarke is interesting. His nine-year-old son had set out along the road to bring home a cow, which was in a nearby field. He had not gone far, however, before a large female panther sprang from the roadside and blocked the way, advancing towards him until it could have been touched with his hand. Fortunately, a large dog had accompanied the boy, and, upon seeing the panther, made for her and succeeded in driving her off. The boy ran home immediately and related his experience to his father. Mr. Clarke went in pursuit with two dogs and a rifle, and was taken by the large dog to the spot where the beast was hiding.

He fired, but was only able to wound the panther before it reached the lower branches of a tree. Another shot only made the animal growl more savagely. Three more shots brought the beast down. After Mr. Clarke was certain that it was dead, he found that his fox terrier had set off into the bushes, and a conflict could be heard. The little dog had discovered another smaller one. It was too late to track this panther, and it escaped, although a fire was lit at the foot of the tree and a search was made. The terrier's face was badly bruised, one of its eyes being torn out.

CANADIAN FORCE IS IN ENGLAND

Continued From Page 1

"On the 10th instant a cable was received from the British Government cordially thanking the Government of Canada for the generous offer of a further contingent. The dispatch also stated that as soon as the first contingent arrived and had been inspected, the details of organization of a new contingent would be carefully considered by the War Office and communicated to the Government of Canada. These details have not been received, but in the meantime the Department of Militia is making every possible preparation for organization and equipment of a new contingent. As soon as the War Office forwards the details all necessary instructions for the immediate mobilization of the new contingent will be given."

PLYMOUTH, via London, Oct. 15.—To Plymouth, with its wonderful history, has fallen the honor of welcoming the Canadian volunteer contingent for Great Britain's expeditionary force. As soon as it was known on Wednesday morning that the transports were arriving, great crowds hurried to all points of vantage overlooking Plymouth Sound and greeted the men swarming the decks with enthusiastic cries, to which the Canadians heartily replied.

The vessels anchored off Devonport. The bands aboard played lively tunes, and sounds of merriment came across the water all day long as succeeding ships came to anchor. The last of the transports arrived at 9 o'clock at night. Only a few of the Canadian soldiers have yet been landed.

UNIVERSITY REGIMENT

Enthusiastic Meeting Held at Manitoba College to Further Its Formation—Colonel Steele on Situation

WINNIPEG, Oct. 14.—A gathering that crowded the convocation hall of Manitoba College to the doors, and that gave ready and hearty response to the stirring appeals of the speakers, who urged upon the students of the University of Manitoba the necessity of joining the projected university regiment, showed the determination of the students to rally strongly to the call of country and of empire. Drilling is to commence on Thursday afternoon at 1:30 on the university campus.

Col. Steele, who was described by the chairman as "the premier military man of Canada," pledged his help to the proposed regiment, and also gave verbal hints as to working. Canada had never before been properly prepared to meet any foe since 1812, when every man knew how to handle his rifle.

Returning to the Canadian position, Col. Steele said that Canada had a voluntary military system that was a farce. Nearly every regiment had to take 50 per cent of new recruits each year, which was unfortunate in the highest degree. The Canadian in time of peace seemed to prefer baseball to rifle practice.

The Canadian was always ready to go to war when the call came, but the trouble was that he had not been trained in time of peace, and consequently his willingness could not be put to service at the moment it was needed.

LUMBER FOR AUSTRALIA

The Government of the Commonwealth of Australia is in the market for a considerable quantity of lumber, to be used in connection with the construction of the new capitol buildings at Canberra, New South Wales. British Columbia lumbermen would like to supply this material, but arrangements seem to have been made which necessitates their placing their bids in the hands of a commission in San Francisco and Aberdeen, Wash. Just why this course of procedure has been thought wise or necessary does not appear, but it will be seen from a statement in our news columns that Dr. Young, Acting Premier, purposes finding out. Dr. Young is to be commended both for the promptitude of his action and for his determination to probe to the bottom what seems to be a flagrant oversight, to use no harsher term, on the part of some one connected with the Government of the Commonwealth. British Columbia is fairly well known as a producer of timber; and even the people of so remote a country as Australia must have some knowledge of this fact. Proof of this Province's ability to supply the best lumber in any quantity is furnished in the fact that the very commission named by the Commonwealth in San Francisco is now seeking bids from timber men in British Columbia. We trust that the explanation which Dr. Young is seeking on behalf of the Provincial Government will be forthcoming, and that the matter has not gone so far that it cannot be remedied to the extent of securing for our timber interests the opportunity to bid direct. The Federal Government maintains a trade commissioner in Australia. It would be natural to assume that one of the first things which the Commonwealth Government would do in seeking this timber would be to get in touch with him.

THE WAR

Apparently "the Battle of the Aisne" is over. This does not mean that there will be no more fighting along that river, or that there is any evidence upon which to base a claim for a great victory for the Allies, but only that the chief centre of activity has been shifted or is in process of being shifted, to another quarter. It is too early to say that the new scene of conflict will be chiefly in Western Belgium, although there is some reason to think so. As far as can be judged from the news given out, the Germans have, temporarily, at least, abandoned the idea of advancing on Paris. Writing some days ago, we said that the war in the West had then passed through two stages. The first was the rapid and really wonderful advance of the Germans to a point almost within gunshot of Paris. The second stage opened when the invaders began their Eastern movement across France, and culminated in the Battle of the Marne and the retreat of the Germans to the Aisne. We said that the third stage would begin with the retirement of the Germans from the Aisne, and that stage seems to be at hand, if it has not already begun. The first two stages cost the Germans enormously in lives and prestige. The casualty lists published in Berlin are said to contain 350,000 names, and to include those of Prussians only. What number would have to be added to cover the other elements of the German army we can only surmise. Of the 65,000,000 people resident in Germany, about 28,000,000 are not Prussians. Therefore, if the non-Prussians are as numerous in the army pro rata as are the Prussians, and their losses have been correspondingly large, fully 250,000 must be added to the 350,000, making a total of 600,000. It is not to be understood that this vast number represents only the killed. It includes casualties of all kinds. Neither must it be assumed that they represent only the losses in France and Belgium. Allowing for underestimates, it seems within reason to think that German casualties in the Western theatre of war have reached fully 550,000 men, which is more than Napoleon lost on his ill-fated expedition to Moscow. It is a greater number than fell in any previous war, even accepting the wild guesses of mediaeval times as approximately correct. The German loss in prestige has been incalculable and irreparable. As a machine for destruction, the German army is unprecedented, but as a fighting force, it has been proved to be inferior, man for man, regiment for regiment, army corps for army corps, to the Allies. What Germany has gained at this cost is a fairly strong grip upon the greater part of Belgium and a very insecure hold upon a small part of France.

Yesterday's dispatches did not convey much information, but what little there was was satisfactory. It was definitely stated that a British and French force has occupied Ypres. This town is in Belgium and is southeast of Ostend, south-southeast of Bruges and southwest of Ghent, and a little more than thirty miles from each of them. It is also stated in Paris that the Allies expect shortly to occupy Lille. The Germans are said to have made some advance with their cavalry along the line of La Bassie, Estacies and Bailleul. Estacies is clearly a clerical error for Estaires. This line extends in a northwest-southeast direction for a distance of about twenty-five miles in the neighborhood of Lille. Later they were driven back, and the Allies occupied Ypres, which is to the northeast of Lille. In a small way this repulse and the occupation of this town is in the nature of a flanking movement, but its value will depend upon the strength of the force which Germany is able to bring down from Ghent. The situation along the Allied line in France and Belgium seems to be that in no place have the Germans been able to advance, and along the banks of the Aisne they have been compelled to retire.

The news from the Eastern field of operations is too conflicting to lend itself to useful comment. It is said that a great battle has begun on a line extending from the Vistula to the Dneister, but just what this means cannot be understood from any map.

From Roumania there comes a very interesting story that Russia is negotiating with Hungary for the secession of the latter country from the Dual Monarchy. It is not asserted that these negotiations have yet assumed an official character, and doubtless they have not; but such a step is well within the possibilities of the situation.

A LESSON FROM BOOTS

Just after the war broke out a Canadian bootmaking firm got an order from the Canadian Government to make 40,000 pairs of boots for the army. The manager of the company, making a speech to the employees, gave some good advice to show what every worker might do to make sure that every boot that went on a Canadian soldier's foot in Europe was as good as any other part of his equipment. He showed that a poorly filled sole, a rotten counter in the heel, a badly-sewn seam, or a defective arch might spoil a soldier's efficiency in the field. In view of the fact that the war is teaching us all to be soldiers, one way or another, suppose we apply a little of this bootmaking philosophy to the boots we wear in everyday life.

A correspondent says: "At this moment I have a pair on which I bought eleven months ago and have worn every day since—except a few Sundays, and the day I took them to the cobler to get new lifts on the heels. In those boots of honor there is not a break in the sole, nor a ripped seam nor a crack in the leather, not a counter gone down. That pair of boots couldn't have been better value for the money if they had been made under oath in a time of war for a Canadian soldier to wear, maintaining the honor of his country abroad. The man who made them had the honor of his firm on his conscience. When he put them on the market he charged a good price because he knew they were worth it."

Those boots were made in Canada—from Canadian leather by Canadian workmen, paid in Canadian money by a firm financed on Canadian capital. What is true of boots is equally true of the thousand and one other articles that Canadians buy. In the small proportion of cases where it is not true, it can be made true. And those few manufacturers may well take a leaf from the book of the manager who made a speech on good bootmaking to his employees. Now that Canadian manufacturers are going out to increase the consumption of goods made in Canada, they will see to it that no man has a shred of argument to show why he should not spend his money for Canadian-made goods.

THE DARDANELLES

We find in an Eastern exchange a dispatch saying that Great Britain, France and Russia were about to take steps to force the Dardanelles. By virtue of a treaty made many years ago, Turkey has the right to prevent any warship from passing the Strait without her permission, but there is nothing in the treaty to prevent any power from forcing the Dardanelles if it feels strong enough to do so.

The Dardanelles is the name given to the strait which separates Southeast Europe from Northwest Asia, connecting the Aegean Sea with the Sea of Marmora. The channel is about forty-two miles in length, and its breadth varies from one to four miles. The western shores are steep and sterile, the country being but a barren waste, with little or no vegetation. The Asiatic side presents a different appearance and character. The shores are sloping and covered with a productive soil. From the Sea of Marmora a strong current runs through the straits to the Grecian Archipelago, except in the case of a strong southwest wind, but there is an undercurrent in the opposite direction. To prevent an attack on Constantinople, the channel has for many years been well fortified. A treaty concluded between the five great Powers and Turkey in 1841 arranged that no ship of war should pass the Dardanelles without the express consent of Turkey, and all merchant ships were required to show their papers to the Turkish authorities. These provisions were confirmed in London in 1871 and in Berlin in 1878, but in 1891, by an agreement with the Ottoman Government, Russia was able to obtain passage for her "volunteer fleet." There are numerous castles along its shores, among them being the Sedil Bahr, Kum Kaleh at the narrowest part, the former in Europe, the latter in Asia; the Chanak Kalesi and the Sultanieh Kalesi, which were formerly confused with Abydos, far to the north. The principal towns along the Dardanelles are Gallipoli and Lampaki. The straits, being so important strategically, have always been more or less prominent in the history of struggles between the East and the West. It was here that Xerxes of Persia passed into Europe by a bridge of boats, and it was here that Alexander the Great led a similar exploit against Persia. The narrowest part of the channel was the scene of Leander's passage to Hero. According to the legend he swam the distance, and the feat was duplicated in later times by Lord Byron. During the Russo-Turkish war Great Britain sent her ships through the Dardanelles.

SERBIA

The authorities of the country we have been calling Servia ask that the press of the British Empire shall hereafter call it Serbia and its people Serbians or Serbs. This is the practice elsewhere than in English-speaking countries, and it also is correct.

The London Times has declared its intention of complying with this request, and no doubt the British press generally will do so. Serbia is not asking for much, and although the change may come a little awkward at first, we will soon get used to it, as we did to Petrograd. The people who dwell in the country have always been called Serbs.

The Serbs are a branch of the great Slav family, which is represented by about 90,000,000 people in Europe, but they have been regarded as a separate people for quite 2,000 years. Their name is thought to signify "the people," and it is one of the oldest of all national names.

SWIMMING WITH BLADDERS

A Victoria man of means expressed himself as unwilling to invest money here for the reason that "there is no more money coming here from England." It is an easy thing to swim with bladders to hold you up, but such an accomplishment is of very little value if you happen to be thrown into the water without them. Is it not possible that we have in this community, as a community, been depending too much upon the "bladders" of outside investors to keep us afloat? Is not this true, and has it not for a long time past been true of the whole Western part of America? In the United States sufficient time has elapsed to enable the people to get beyond the "bladder" stage. But are we not yet in it in British Columbia? The hard times, which followed the Baring failure about twenty years ago, taught the people of the State of Washington that they would have to get along without adventitious aids, and so they struck out for themselves with very good results. If the war teaches us in British Columbia to do the same thing, it will give us a valuable lesson.

The truth of the matter is that we are all too much in the habit of looking to the Government when we ought to look to ourselves to help ourselves. Does any locality feel the pinch of hard times? straightway it sends a delegation to the Government asking for help. Is it desirable to get people on the land, or to finance a business, or do anything else to help things along? the first thing thought of is to ask what the Government will do. The Government of the Province is not an eleemosynary organization or one to underwrite private enterprise. Primarily it is to administer the laws of the country, and secondarily to carry on public works. Anything it may do over and above these things is so much in addition to the functions which it is organized to discharge. All, or at least most all, Governments attempt more than these two fundamental things. Thus the Government of this Province endeavors to encourage and assist the development of agriculture; but there are Governments that leave such matters severely alone. It is not a part of the inherent duties of the Government to promote the business of the country. That is for individuals primarily, although we concede that a Government, if it can, ought to give any help within its power. But it always must be remembered that the Government has no resources apart from those belonging to the people at large.

What has just been said is a digression from what we started out to say, which was that as long as this community looks to expenditures on public works or money sent from somewhere else to maintain its prosperity, it is simply swimming with bladders, and when the bladders are taken away it will certainly flounder in the turbid waters of financial depression. We feel we have a right to speak freely of this now, because when times were at their best we advocated the pursuit of such a course in this community as would make us independent of these extraneous and temporary aids to prosperity. We pointed out, when the Dominion Government began its great outlays here, that if the community was going to profit by them, it must manage in some way to keep the money within its borders. We said that if the millions, which the Dominion was going to expend upon the breakwater, the piers and other works, could be kept in circulation here, the community would experience a wave of prosperity that would never wholly recede. But what has happened? The most of this money was sent out of the country within a little while after it had been paid out by the Government. We venture to say that, if the truth could be ascertained, it would be found out that the farmers of the States of Washington and Oregon and of New Zealand and Australia have derived more benefit from the building of the breakwater and piers, and will derive more benefit from the building of the drydock and all the other great works that have been in progress or will before long be undertaken here, than have the farmers of Vancouver Island, under whose very eyes the work is carried on.

It is because we feel strongly upon this subject, and because we think the time auspicious for driving home to our farmers, merchants, manufacturers, moneyed men and every one else that the community must become more self-reliant, more confident in itself, more self-sustaining, and to put it very plainly, more industrious, that we welcome the efforts now being put forth to stimulate the consumption of Victoria-made goods, to encourage the development and expansion of the public market, to promote the inauguration, even on a small scale, of new industries, to broaden the acreage under cultivation. An abundance of money is put in circulation in this community. The trouble is that very little of it is kept in circulation.

TRADE WITH SWITZERLAND

The Consul of Switzerland, whose office is in Vancouver, requests that publicity shall be given to the following: "It may be of interest to the merchants and importers of this Province to know that there are certain trade routes open with Switzerland, as that country, notwithstanding the war, can actually import and export via Rotterdam and Genoa."

Germany claims that, irrespective of those who are liable to service, 1,000,000 volunteers have joined her army.

There never was a war, and probably never will be again, when a more appropriate motto for the British Empire was "One for all and all for one."

One hundred Members of the British House of Commons are serving with the forces. It will be an attenuated House which reassembles at Westminster this month.

A few weeks ago Mr. Lloyd George went to the London market and asked for the loan of £10,000,000 to help Belgium in her hour of trial. Describing the incident, he said he was offered £40,000,000, and the banks were willing to advance even more. The money has been loaned to Belgium without interest.

The words of the late President Garfield are worthy of remembrance in these days of crisis: "A nation is not worthy to be saved if, in the hour of its fate, it will not gather up all its jewels of manhood and life and go down into the conflict, however bloody and doubtful, resolved on measureless ruin or complete success."

Cologne is in a state of panic induced by fear of British warplanes. Machine guns have been mounted on hotel roofs and the roof of the cathedral. The airship sheds are strongly guarded. In one day twenty-one alleged spies were arrested and shot. The couple of raids already made by British aviators, from all accounts, appear to have spread terror throughout Germany.

Before evacuating Antwerp, the Belgo-British forces are said to have blown up all the German ships in the harbor. From the beginning of the war thirty-six German ships of an aggregate tonnage of over 100,000, and valued at $12,000,000, had been held up at Antwerp. Germany was so convinced that Belgium would offer no resistance to her advance on France that she appears to have forgotten to give orders to these ships to proceed to neutral ports. Her oversight cost her $12,000,000.

The following is an extract from an order issued by the German Emperor, dated Headquarters, Aix-la-Chapelle, August 19, 1914: "It is my Royal and Imperial command that you concentrate your energies, for the immediate present, upon one single purpose, and that is that you address all your skill and all the valor of my soldiers to exterminate first the treacherous English and to walk over General French's contemptible little army." Eight weeks have passed by since then, and not only does the "contemptible little army" still live, but it has grown in numbers and acquired imperishable renown.

"THE CALL"

Come to the Flag, where the Motherland needs you;
The future calls, and the great past speeds you;
Your blood and your best for the land that breeds you,
Son and soldier, be one to me!

Never a child that my breast has suckled
Yet at the word of the tyrant truckled;
Swift to my side with your armor buckled;
Your brothers call you from over the sea.

Can you hear the guns, and the children crying
On the fields of France, where the Flag is flying;
Can you hear the cry of our dead and dying,
And stop your ears with the dust of peace?

The beast of the world on the world is preying,
For a little hour leave work and playing;
An hour for men, with no thought of staying
Till the beast be crushed, and the slaughter cease.

Men of my race, whom the oceans sever,
Freed by my thousand years' endeavor,
Strike for that freedom, now or never,
Stand forth for England who made you free!

Come to the Flag, where the Motherland needs you;
The future calls, and the great past speeds you;
Your blood and your best for the land that breeds you,
Son and soldier, be one to me!

—James Bernard Fagan.

Much Time Labor —AND— Thought

Have been spent on modern inventions for lightening the drudgery of housework, and saving the housekeeper's time. We make it a point to secure all the latest and best labor saving devices and conveniences. Your work is hard enough at best and you owe it to yourself and your family to save your health and strength all you can. Every day you waste energy doing work some of these little inventions would save you, you are paying a big price for them and getting nothing back. A visit to our utensil department will undoubtedly be of interest and profit to you.

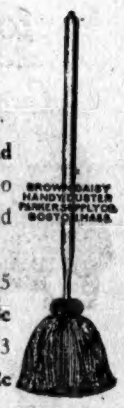

Lighten Your Labor

Use **Brown Daisy** chemically treated **Mops and Dusters.** They simply absorb the dirt; no oil, no fuss, specially shaped Mops for getting behind radiators. Cash prices:

Floor Mops, each	$1.35 to $2.25
Mop Cloths, each	68c
Hand Mops, each	32c to $1.13
Dust Cloths, each	32c

AUSTRALIA SEEKING LUMBER FOR CAPITOL

Government of Commonwealth Places Strange Order in San Francisco--Would Correct Blunder.

In an endeavor to correct what appears to be a blunder on the part of the Government of the Commonwealth of Australia, placing the lumbering interests in this Province under a serious disability, the Hon. Dr. Young, Acting Premier, yesterday dispatched two cablegrams, as follows:

"Victoria, B. C., Oct. 14.
"Prime Minister,
"Commonwealth of Australia,
"Melbourne.

"Understand your Government has appointed a commission in San Francisco for the purchase of lumber for your new capitol building. Can British Columbia mills quote direct instead of through American channels?

"YOUNG,
"Provincial Secretary."

"Ross,
"Canadian Trade Commissioner,
"Melbourne.

"Understand that the Australian Government is in the market to purchase lumber for the new capitol building. Have cabled Premier asking that British Columbia mills be allowed to quote direct. Please use your influence.

"YOUNG,
"Provincial Secretary."

"It was only this morning that I received such information as led to my sending these cables," said the Provincial Secretary. "I confess that I was amazed on learning that it was intended to give British Columbia the 'go-by' in this manner, and I deemed the matter so serious that I have lodged a protest in this form.

Order for 25,000,000 Feet

"I understand that the amount of lumber that will be required for the capitol buildings will be approximately 25,000,000 feet. This would constitute a very nice order for our people just at this time, and that it could be filled with the utmost promptitude and satisfaction goes without saying. It appears from the information which has reached me that the bids of the British Columbia people who may tender must be sent to a commission in San Francisco, who, in turn, will send the tenders to agents in Aberdeen, Wash. The extra charge entailed upon the Australian Government, if it gets British Columbia lumber in this round-about way, would amount to about 6 per cent. In other words, by the action of the Government of Australia a handicap of 6 per cent on the total amount of the order is placed upon the bidders of British Columbia. This is most unfair and most uncalled for.

"I confess that, to my mind, as far as my present information goes, the whole procedure is amazing. Canada maintains a trade commissioner in Melbourne. It would have been an easy matter to get in touch with him. Indeed, it is inconceivable why he was not the very first man approached by the Government with a request for information as to our ability in Canada to fill this order. I trust that the matter has not reached a stage when it is impracticable to rescind the order of procedure proposed.

"It is such instances as these which tend to make one despair of successfully evolving a system of mutual trade exchange between the different parts of the Empire. The desire of the people of Australia for better trade relations with Canada is beyond question, but it would appear that the machinery for giving effect to this aspiration has not yet been perfected, or that, if it has, it occasionally slips a cog."

Apropos of the forwarding of these cable messages, it is interesting to mention that the cost was quite excessive, in the neighborhood of $100, owing to the fact that the messages had to be transmitted over practically three-quarters of the earth's surface. Owing to the fact that the Pacific cable has not yet been connected up since it was cut at Fanning Island on September 23 by a German cruiser, cables to Australia have to be transmitted to England, thence to the Antipodes.

END INDIGESTION OR STOMACH PAIN IN FIVE MINUTES

"Pape's Diapepsin" Makes Sick, Sour, Gassy Stomachs Feel Fine.

Time it! In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, acid, or eructations of undigested food, no dizziness, bloating, foul breath or headache.

Pape's Diapepsin is noted for its speed in regulating upset stomachs. It is the surest, quickest and most certain indigestion remedy in the whole world, and besides it is harmless.

Millions of men and women now eat their favorite foods without fear—they know Pape's Diapepsin will save them from any stomach misery.

Please, for your sake, get a large fifty-cent case of Pape's Diapepsin from any drug store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long, so make your stay agreeable. Eat what you like and digest it; enjoy it, without dread of rebellion in the stomach.

Pape's Diapepsin belongs in your home anyway. Should one of the family eat something which don't agree with them, or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangement at daytime or during the night, it is handy to give the quickest, surest relief known.

ISLAND TELEGRAPHS

Various Extensions of Dominion Government's System on Vancouver Island Make Good Headway

First-class progress, it is reported, is being made in the work of extending the Dominion telegraph system on Vancouver Island. The line from Campbell River to the North is advancing as fast as a gang of capable workmen can push it. The material is all on the scene and, favored with the good weather of the past few weeks, it has been possible to make most satisfactory headway. The route of this branch is by way of Rock Bay, Suquash, Port Hardy, Quatsino, Holberg, to the terminal, namely, San Josef. Thus many magnificent agricultural districts, most of which at present are comparatively sparsely populated, will be given the advantage of direct telegraphic communication with the outside.

Another line has been undertaken recently on the West Coast. Starting at Tofino it will run to Mosquito Harbor, to the Kalapa Mines, thence up Bedwell Sound to Bear River. At all these centres there are settlements of more or less importance which, unquestionably, will welcome the facilities offered by such a service.

Work also has been instituted on a branch from East Sooke to Rocky Point. This will put the residents of the latter district in direct touch with Victoria both by telegraph and telephone.

OFFICIAL WELL PLEASED

Mr. J. B. Spencer Pays Inspection Visit to Agricultural Department—Work Highly Praised

Mr. J. B. Spencer, editor of The Agricultural Gazette, published at Ottawa, and head of the publications branch of the Dominion Department of Agriculture, was in the city yesterday on a brief visit on departmental business. His mission is to check expenditures in connection with the subsidies given by the Federal Government to the various Provinces.

The Agricultural Instruction Act provides the sum of $10,000,000 for the department to spend on instruction in matters pertaining to agriculture in the period of ten years. Last year $700,000 was divided among the Provinces, and this year $800,000. Mr. Spencer is deputed by the Federal Government to investigate in the offices of the Provincial Departments and satisfy himself that the money is being spent in accordance with the provisions of the act—that is to say, in accordance with the agreement between the Federal and Provincial Ministers. It is also his duty to see that the money is not used to decrease the expenditure on agriculture made by the Province.

Mr. Spencer is of opinion that the highest praise is due to the British Columbia Department of Agriculture for the work which is being done here under the act. He has especial commendation for the demonstration farm work in connection with the poultry demonstration stations established in various parts of the Province, silo demonstrations and the like.

This is his first visit to the Province, and, even before reaching here, he realised, from seeing the wonderful display at the recent International Irrigation Congress, the splendid possibilities of British Columbia as a fruit country. He was much impressed by the Provincial exhibit there, and he remarked that the growers here were evidently alive also to the advantages of perfect packing and its corollary, perfect classification.

It is evident that an effort is being made in all the Provinces of the Dominion to increase the crop next year in consequence of the war.

DENOUNCE MILITARISM

Mr. F. E. Simpson Returns From Eastern Tour—Pro-British Sentiment of the States

Mr. F. E. Simpson, of 1546 Monterey Avenue, returned to his home yesterday from Atlantic City, N. J., where he attended the annual session of the Sovereign Grand Lodge of Odd Fellows as the representative of the Grand Lodge of B. C. There were present representatives from every Province in Canada and from every one of the United States, the session lasting a week and much business being accomplished.

Mr. Simpson also visited Chicago, Washington, New York, Philadelphia, Montreal and Ottawa, and noticed that as a rule the prevailing conditions of business in the East are about on a par with those in the West. The future for big business, however, he thinks looks brighter, and the foreign demand for manufactured articles will tend to ease conditions.

Mr. Simpson was greatly impressed with the general sentiment shown by the people of the United States regarding the war. Traveling from Seattle, by way of Chicago, to the Eastern cities, he heard no adverse comment on the British policy. On the contrary, there seemed to be a deep-set conviction that civilization generally demanded the absolute elimination of German militarism. Even German citizens of the States frankly stated that it was militarism which drove them to the New World and the quicker it was overwhelmed the better it would be for Germans as well as for the rest of the world.

LITERARY SOCIETY

Inaugural Winter Meeting of Society Founded Nineteen Years Ago

The Victoria Literary Society held its inaugural meeting on Tuesday evening at the residence of Mrs. R. B. McMicking to arrange the work for the ensuing year. The society, which meets every two weeks during the Winter at the houses of the respective members, was founded on November 25, 1896, by Lady Aberdeen, and is, therefore, entering upon its nineteenth year.

The work for the coming season will begin with the study of Shakespeare's historical play, "Henry V," as being specially topical, and the first paper which will be read by Mr. C. B. Christenson, on "Why Belgium Has Become the Centre of the War, Historically and Geographically." Other suggested topics for the Winter are as follows: "The German Empire," "Slavic Race Question," "Russian Democracy," "The House of Hapsburg," and "Nietsche and His Influence on German Culture." The English writers whose works are to be studied are: Dryden, Keats, Shelley, Browning, Campbell and Bulwer Lytton; while other writers on the list include the Belgian poet, philosopher and playwright, Maurice Maeterlinck, and the American writers Lowell and Whittier.

Officers for the coming year were appointed as follows: The Venerable Archdeacon Scriven, president of the society since its inception, was made honorary president; while the Rev. J. H. S. Sweet was elected president; Mr. R. E. Gosnell first vice-president, Mrs. R. B. McMicking second vice-president, and Miss Amy Fox secretary-treasurer. Mrs. Justin Gilbert, Mrs. Andrew J. Taylor and Mr. C. B. Christenson form the committee.

Pure Silk Vests of fine quality, with plain and fancy yokes, at $2.00 and $3.50

Your Next Door Neighbour

Is he prospering? Are you doing your part towards helping him to prosper?

Remember that unless he prospers you yourself will suffer.

Whatever he makes or sells, see that you buy it from him, rather than from someone else——to the end that he may be able to buy what you yourself make or sell, to the end that you create prosperity for him and for yourself.

Every Canadian is your next door neighbour —— every Canadian needs your help now just as you need the help of every Canadian ——every impulse of patriotism and every ounce of reason urge you to buy only Canadian-made goods——If you will resolve to do so and consistently carry out the resolve every Canadian workman will be employed, Canadian merchants will prosper, you yourself reap the benefits of "good times."——Remember——

EVERY CANADIAN IS YOUR NEXT DOOR NEIGHBOUR

Detained in Bavaria

LONDON, Ont., Oct. 14.—"Quite well but cannot leave," is the text of a message received here today from Captain F. H. Anderson, formerly of the military headquarters staff at Quebec and in this city, who, with his wife and three children, has been held by the Germans in a fortress in Bavaria, where he has been living for the last two years.

A gum has been discovered in large quantities in the Malay Peninsula that yields from 10 to 30 per cent pure rubber.

Tests by an Eastern railroad have shown that its green switch targets are more easily seen if painted with a white border.

Germany has sixty towns where women are employed as policewomen.

QUICKEST REMEDY EVER SOLD IN VICTORIA

CITY NEWS IN BRIEF

Bank Clearings—Bank clearings for the week ending October 13, amounted to $1,599,948.

Luncheon Today—At the regular weekly luncheon of the Victoria Rotary Club, which will be held at the Westholme Grill, there will be addresses by a number of the members on "Advertising and the Drama." As a result of a membership campaign which is being prosecuted by the organization, new members are being received daily.

Employees Pleased—The decision of the City Council, reached on Tuesday evening, not to make any reduction in the salaries of the permanent force, was a topic of congratulation in City Hall circles yesterday, and the employees wore a happier appearance since assured that they will not be forced to accept a curtailed remuneration.

For Patriotic Fund—Mr. William Dee, district superintendent of Dominion Telegraph, announced yesterday that employees of this branch of the service had decided almost unanimously to contribute one day's pay to the patriotic fund. This included everyone from the operators to the messengers. It also embraced the linemen engaged in different sections of the Island.

New Post Office—Within a month the new wing of Victoria's post office will be completely roofed and it will be possible for the McAlpine Construction Co., the contractors, to proceed with the interior finishing free from interference through inclement weather. The work is being hurried, with the idea of giving the post office proper, adequate space for the satisfactory handling of the Christmas rush.

Contractors Finish Work—Messrs. Moore & Pethick, contractors supplying the concrete pipe for the northwest sewer system, have notified the city that they have now on hand sufficient pipe to complete the work. The firm's work has thus been finished some months ahead of contract time. The city will make payment and the company will give a bond to finish delivery as required.

Mutual Benefit Talks—The first of a series of mutual benefit talks on men's problems was held by the dormitory men of the Y. M. C. A. last evening. The subject was, "What Are You Worth?" and the principle brought out in the discussion was that "man's life consisteth not in the abundance of things that he possesseth." These talks will be held every Wednesday evening, commencing at 7:30 o'clock.

Slow Registration—Registration of householders and license holders is proceeding slowly, and while half the month has passed, only about eighty registrations have been made. Those desiring to have their names placed upon the municipal voters' list must, unless registered property owners or entitled to a vote by reason of holding land under an agreement for sale, register before the end of the present month. Agreement holders have until the end of November.

Mothers' Union Meeting—A meeting of the Mother's Union was held at St. Barnabas rectory on Tuesday afternoon to introduce Mrs. Leighton Atkinson, of Calgary, traveling delegate for the Mothers' Union, to the members in this city. The Bishop of Columbia introduced the visitor, and Mrs. Roper presided over the meeting, which was well attended. A most interesting account of the work of the union was given by Mrs. Atkinson, who spoke at some length on its objects and recent progress.

Thanksgiving Social—A gathering of the members of the Metropolitan Methodist Church celebrated Thanksgiving on Monday evening by a very successful entertainment given under the auspices of the Epworth League. A series of tableaux with illustrative music were presented, among other subjects being "The Angelus," "The First Thanksgiving," "The Witches," "Schooldays" and "Britannia and the Allies." Mr. Browning's musical selections were greatly appreciated. Refreshments were served at the close of the programme and a pleasant social hour was enjoyed before the meeting adjourned.

Retail Employees Notified—Owing to the fact that there has not been time enough to permit of the sending out of notices to members of the Association, the executive of the Retail Employees' Association desires that all members of the organization will accept this notice, and be in attendance at the meeting at the City Hall this evening, whereat representatives of the Victoria and Island Development Association and the B. C. Manufacturers' Association will be present, and the question of the best manner in which assistance may be given by the employees to make the Made-in-Victoria movement a success will be discussed. The meeting is called for 8 o'clock.

Dismissed Case—More evidence was heard by Judge Lampman yesterday in the action for damages brought by Mr. Christopher Moses against the B. C. Electric Railway Company. The suit was the outcome of a collision between a street car and a motor truck owned by Mr. Moses, on Craigflower Road, at the junction of Pine Street. His Honor visited the scene of the accident in the forenoon. He dismissed the action, both the claim of Mr. Moses for the amount or damage incurred by his vehicle and that of the tramway company for a small sum for injuries to the street car being disallowed. Mr. J. A. Aikman represented the plaintiff and Mr. H. B. Robertson appeared for the company.

Using a Rifle—Yip Pew and Yip Quong, two young Chinamen, made their appearance in the police court yesterday as a result of an episode of which they were the principals on Tuesday afternoon. The former was accused of carrying a rifle without a license, while the latter answered to the charge of discharging a firearm within the city limits. Both were convicted and fined $12.50. Michael Hare, master of the tug Shamrock, laid the information. He explained that, when entering the harbor, he was astonished to hear the crack of a rifle and to witness the impact of a bullet immediately behind his boat. On the shore he saw the two Chinamen engaged in what apparently was rifle practice. He asked them to stop, but they paid no attention.

Y. M. C. A. Membership Contest—At a meeting of the membership committee of the Y. M. C. A. held last evening plans were put on foot for this year's campaign in defence of the Paterson Shield, which is at stake annually in a membership competition among the three associations of the Province, Victoria, New Westminster and Vancouver. Victoria won it last year, with New Westminster a very close second. It was announced that Mr. R. W. Perry, who gave invaluable service as chairman of the campaign committee of the local association last year, had consented to act in that capacity again. Another meeting will be held next Wednesday evening, at which "General" Perry, as he has been styled for the occasion, will confer with his captains and plans will be perfected.

More Work Proposed—It is the intention of the Esquimalt Council to begin sewer construction in section "D" of the municipality. This includes the district bordering on Constance Cove. Tenders are being invited, and, as soon as possible, the contract will be awarded.

Forgery Charge—Charlie Bo and J. M. Chow, against whom stand charges of forgery, were arraigned in the police court yesterday. A remand was granted for a week, when the witnesses to be called by the Crown in rebuttal will be heard and judgment pronounced.

Will Take Action—An action is to be instituted against the city and the water commissioner by a man named Gaffo for damages for injuries alleged to have been received while working on the Sooke Lake water works. The matter has been before the Council, and, after consideration, it was decided not to accept responsibility.

Published Abroad—The Scotsman, in its issue of October 1, contains an account of the demonstration which took place at Victoria on the occasion of the departure of the troops for the front. This notice was forwarded by Mr. Herbert Cuthbert, industrial commissioner, who sent a similar notice to a number of other leading newspapers in the United Kingdom.

Through Service Resumed—Announcement was made yesterday by the traffic manager of the B. C. Electric Railway Company that, with the completion of the track alterations at the corner of Pandora Avenue and Douglas Street, the through service on Beacon Hill and Spring Ridge routes and to Burnside have been resumed. The former cars run on a ten-minute schedule and the Burnside on a fifteen-minute.

Was Released—Harry Gray, the man who lost $50 a few days ago and accused a man named Fisher of the theft, came before the police magistrate again yesterday. He was a sorry looking spectacle. After Fisher's trial, it appeared, he had been set upon in Oriental Alley and severely beaten. While lying helpless, the police encountered him and his arrest on a charge of drunkenness followed. He was dismissed.

YOUNG MEN'S CONCERT

Enjoyable Entertainment Given on Tuesday at First Presbyterian Church—Popular Music

An entertainment was held on Tuesday evening by the Young Men's Club of the First Presbyterian Church, when close on a hundred guests enjoyed a most successful programme. Mr. John McBride, president of the organization, occupied the chair, and among those present was the Rev. J. G. Inkster, pastor of the church, who addressed the young people.

Excellent vocal and instrumental music was supplied by Miss Lillie Christie, who sang the ever-popular army marching song, "It's a Long Way to Tipperary;" the Rev. A. E. Raeburn Gibson and Messrs. J. G. Brown, Charlesworth, Mole, Walker and Fraser. Refreshments were served at the close of a most enjoyable evening.

AFTER OUR TRADE

Canadians Warned of German Tactics to Try and Capture Canadian Business

The following is a draft of a circular letter being put out by the Montreal Board of Trade to counteract efforts being made by representatives of certain German houses with agents in Great Britain to capture Canadian business. It is being circulated by the members at their own expense to "help the work along:"

"The council of the Montreal Board of Trade has received from two prominent shipping and forwarding firms in London, letters calling attention to the fact that German shipping and forwarding houses are prosecuting a very energetic campaign in Canada and other British Dominions with a view to securing business between Great Britain and the Oversea Dominions. The representations made show that German houses, who have their head offices in Berlin and branch offices at different ports in Great Britain, are, through their agents in Canada, circularizing business houses in Canada, offering to attend to the shipments which they make from Great Britain at a charge for shipping and looking after the consignments very much below what is a reasonable and fair figure for such a service. These German houses are offering to make contracts for a year or more with Canadian houses on these low rates.

"The council, while believing that Canadians generally are patriotic enough to refrain from giving their custom to German houses, fears that the circumstances that the parties soliciting this business represent German houses is not always known, and hence it is desirable that inquiry should be made by all Canadian firms as to the nationality of firms represented by parties soliciting their shipping and forwarding business."

THE WEATHER

Meteorological Office, Victoria, B. C., at 8 p. m., October 14, 1914.

SYNOPSIS

The barometer remains comparatively high over this Province and fair mild weather is general with light to moderate winds along the Coast. Abnormally high temperatures prevail from Puget Sound to California. The weather is also fine and mild in the Prairie Provinces.

What Dyspeptics Should Eat

A PHYSICIAN'S ADVICE

"Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity; therefore stomach sufferers should, whenever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach, develops acidity. Unfortunately, such a rule eliminates most foods which are pleasant to the taste as well as those which are rich in blood, flesh and nerve building properties. This is the reason why dyspeptics and stomach sufferers are usually so thin, emaciated and lacking in that vital energy which can only come from a well fed body. For the benefit of those sufferers who have been obliged to exclude from their diet all starchy, sweet or fatty food, and are trying to keep up a miserable existence on gluten products, I would suggest that you should try a meal of any food or foods which you may like, in moderate amount, taking immediately afterwards a teaspoonful of bisurated magnesia in a little hot or cold water. This will neutralize any acid which may be present, or which may be formed, and instead of the usual feeling of uneasiness and fullness, you will find that your food agrees with you perfectly. Bisurated magnesia is doubtless the best food corrective and antacid known. It has no direct action on the stomach; but by neutralizing the acidity of the food contents, and thus removing the source of the acid irritation which inflames the delicate stomach lining, it does more than could possibly be done by any drug or medicine. As a physician, I believe in the use of medicine whenever necessary, but I must admit that I cannot see the sense of dosing an inflamed and irritated stomach with drugs instead of getting rid of the acid—the cause of all the trouble. Get a little bisurated magnesia from your druggist, eat what you want at your next meal take some of the bisurated magnesia as directed above, and see if I'm not right."

Quong Man Fung & Co.
1715 Government Street

The Brentwood Hotel

is preparing to entertain a large number of people during the week-end and the following Monday, which is Thanksgiving. Home-grown turkeys and chickens in abundance, with plenty of home-made jellies, preserves, brandied peaches, etc., will help to make the days enjoyable and the meals appetizing. Following dinner, Thanksgiving Day, Mr. Meaton will provide music for a dance. Reservations should be telephoned to the hotel or to 2870.

Dr. B. C. Richards begs to announce that he has opened an up-to-date dental office at No. 314 Central Building, View Street, and is prepared to do all kinds of dental work. Office phone, No. 3533; Residence Phone, 4603.

OLD POINT RAISED

Request of Telephone Company Brings Differences With City to the Fore Again

The differences between the city and the B. C. Telephone Company, arising out of the agreement signed three years ago, whereunder the underground telephone system was to be installed, give promise of being revived. The city has been requested by Messrs. Barnard, Heisterman & Robertson, solicitors for the company, to pay over $25,000 in city debentures, such amount now being due to the company, which has completed sufficient work on the installation of the system to entitle it to that payment. The company has already been paid $50,000 in debentures and is entitled, in all, to $100,000. The request also sets forth that one case had arisen on Johnson Street where a property owner refused to grant an easement to permit of the company making the necessary lateral connection from the street conduit to the property nearby. The city is asked to take advantage of its powers and expropriate this easement.

This request opens up the whole question of how far the city is prepared to go in securing easements which the company cannot negotiate. The city has agreed, in all cases, to expropriate and pay for the necessary rights-of-way. This was the chief point on which the city, recently, following legal advice, decided to refuse to carry out the agreement, but a legal clash was averted by the company announcing that it would proceed with the work of completing the system. Now comes up the old point and the parties are again at odds.

A private session of the Council was held after the regular Council session last night, but the decision arrived at was not made public.

AID FOR DEPENDENTS

Headquarters of Daughters of Empire Is Scene of Activity—Garments for Sailors

Interesting work was in process at the headquarters of the Daughters of Empire yesterday, the special business of the day being the upholstering of a simple basket cradle for one of the tiny "new arrivals" whose father is on his way to the front.

Mrs. Joe Wilson has presented one of these baskets with pillow complete, while four are the gift of Miss Kathleen Dunsmuir, and willing hands are now at work on them upholstering the sides to protect the downy heads of their future occupants from unpleasant contact with the wicker work, and to exclude draughts.

The Esquimalt Chapter was on duty at the rooms during the day, and spent a busy time packing up games and literature for distribution among the naval volunteers, and the men on board H. M. S. Shearwater, Newcastle and Algerine and H. M. C. S. Rainbow. Among the work brought in was seven pairs of socks and three pairs of wristlets knitted from wool supplied by the I. O. D. E., and a gift of two Balaclava helmets from Mrs. Weams.

CHILDREN HATE PILLS, CALOMEL AND CASTOR OIL

If Cross, Feverish, Constipated, Give "California Syrup of Figs."

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

The James Bay Hotel is offering special rates for the Winter. Phone 2864.

YOUNG MEN ENLIST FOR ACTIVE SERVICE

Volunteers Constantly Making Application for Admission to Ranks of Local Regiments—Military Notes.

Nothing of special importance occurred in local military circles yesterday. Routine drill occupied the attention of the various regiments. Recruits are being taken on by the 50th "Gordon" Highlanders for active service. The applications, it is stated, are increasing every day, doubtless as a result of the understanding that a second Canadian contingent will be sent to the Old Country at an early date. One young man has reported at the Willows camp from as far South as Los Angeles, Cal. Being a British subject, he left the United States as soon as possible and has come here to enter the service with the ardent desire of getting to the front. This is but one of many incidents which are being brought to the attention of the local officers constantly.

Today the Highlanders will engage in rifle shooting over the Clover Point range. The Fusiliers will go through their regular drill at Esquimalt, while the 5th Regiment will hold their ordinary training on the guns of the various local forts. The latter also will indulge in musketry work over their improvised ranges at Macaulay Plains and elsewhere. In connection with the Thanksgiving Day dinner enjoyed by the soldiers, the Willows detachment of the 5th Regiment wish to express their appreciation of the good things sent them for the holiday repast.

Judging by the response to the call made by Col. A. Roy, the district officer commanding, for volunteers for service in Bermuda, there will be no difficulty in obtaining the fifty men required within the period specified. Already, it is understood, a considerable force has been secured and new ones are coming to hand every day.

The commanding officer, officers and men of the Victoria Volunteer Guards wish to express their deep appreciation of the generosity and patriotism of the Empire Realty Company, Mr. Bradshaw, and other owners of the office, 921 Douglas Street, viz., of the Strathcona Hotel Block, for offering them the free use of the office as orderly room and headquarters. This is a regiment of volunteers, undertaking military drill to assist in the defence of the city, if required. It is not a paid force, consequently has no funds, and would appreciate any support from the citizens. It is incumbent on all those, unable for various reasons to go to the front, to join the Victoria Volunteer Guards, thereby showing their willingness to support the Empire in this hour of need.

GOOD SEASON'S WORK AT STRATHCONA PARK

Mr. R. H. Thomson, Chief Engineer in Charge of Development Work, Returns From Trip of Inspection.

Mr. R. H. Thomson, chief engineer in charge of the development work in connection with Strathcona Park, the great reserve in the heart of Vancouver Island, set apart by the Provincial Government two years ago, has just returned to the city from a trip of inspection in that district. Interviewed yesterday by The Colonist, Mr. Thomson said:

"During the season, which has now about closed, we have been enabled to do a very considerable amount of work on the great task to which we have set our hands—the development of what, I am sure, will prove one of the most important scenic parks in Western America, if not on the entire continent. The more I am privileged to go over the immense area comprised in the reserve known as Strathcona Park, the more I am impressed with the fact that there we have an asset of incalculable value.

"When developed and laid out as planned, it will assuredly prove a powerful magnet to attract a great host of sightseers, tourists, hunters, and sportsmen generally, from far and near. It is a veritable Switzerland in miniature, and, figuratively speaking, it lies right at the doors of the busy marts of men, for the railway facilities now offering are all that could be desired.

"This year has been spent mainly in the work of reconnaissance surveying, road and trail building. The weather during the Summer was especially favorable and we were able to make good progress with the rather small force employed, as a result of the reduced vote at the last session of the Legislature. Our work came to a conclusion somewhat more quickly than was anticipated owing to the fact that a number of the horses which we were employing were required for military purposes."

BOARD OF TRADE MEETINGS

Chairman of Vancouver Committee Confers With Local Committee on Freight Matters

The freight committee of the Victoria Board of Trade assembled yesterday morning to meet Mr. A. G. McCandless, chairman of the freight committee of the Board of Trade of Vancouver. Mr. McCandless came with new data in respect to the advantages to be obtained by shipping Canadian goods in bond from New York by the Maple Leaf Line. The visitor from Vancouver made out a strong case and returned to Vancouver, promising to submit a full statement in writing to the Victoria board. On receipt of this statement, the committee will meet again to consider the action they will recommend the board to take.

The freight committee assembles this afternoon to meet Mr. Joseph Hunter, of the Canadian Collieries Company, to discuss the arranging of facilities for the carriage of freight shipped from Victoria by the Canadian Pacific Railway over the Canadian Collieries line to Cumberland.

There will be a Council meeting of the Board of Trade this morning, at 10:30, to prepare business for the quarterly general meeting, to be held at 3 o'clock on Friday afternoon next.

SEEK EMPLOYEES' AID

Retail Clerks Will Be Asked to Assist in Campaign on Behalf of Locally Manufactured Products

Tonight at the City Hall a conference will be held between members of the industrial committee of the Victoria and Island Development League and representatives of the Retail Employees' Association, when the aid of the latter body will be enlisted in the campaign, which is now under way to increase the consumption of Victoria-made goods in preference to manufactured articles imported from outside. The industrial committee has already taken the matter up with the retail merchants and wholesale men. As the retail employees are in a position to do effective work in directing public attention to the locally manufactured products, their assistance will be asked.

The various sub-committees which have in hand the arrangements for the Made-in-Victoria Fair to be held on October 22, 23 and 24, are working hard to make the event a success. With the hearty co-operation of the local manufacturers the exhibit will be the finest ever made in the city. As a publicity measure it will effectively bring to the attention of the public the wide range and high quality of the products of home manufacturers.

DESTITUTE ALIENS CAST UPON THE CITY

Provision Must Be Made to Feed Them—Extension Is Made to Programme for Their Relief.

Whether to let them remain destitute and, later, when they are arrested for vagrancy, to pay fifty cents per day during the time they are in jail, or provide them rough work at a rate of $1 per day, was the problem discussed by the City Council Tuesday evening, when the recommendation of the finance committee that the last-mentioned course be adopted in respect to a number of aliens now in the city, was before the board.

Alderman Fullerton, who had previously entered emphatic objection to the Council's proposal to pay a wage of but $2 per day to local labor employed on those street works which it is proposed to undertake as a relief measure this Winter, declared the city could not afford to provide work for aliens, most of whom, if not all, are enemies.

Mayor Stewart pointed out that the aliens are hungry and destitute and the city is feeding them at present. The Government, while refusing to allow them to leave the country, is not providing for them, and it is only a humane thing to do to give them some work which will be of benefit to the city, while providing them with enough to keep body and soul together.

Alderman Sargent opined that if the authorities insist upon the aliens staying in the country, they should provide for them. Alderman McNeill declared the position is one most unfair to the city, which should not be called upon to support men who have been dumped into the country because of the immigration policy of either political party, while Alderman Porter thought that while doubtless some of them might, if allowed out of the country, go back and fight, yet in that respect they would set an example to those members of the local labor unions who recently had declared that no member of a union should join the militia.

The committee's recommendation was approved, only Alderman Fullerton objecting.

Relief Works

Further relief works were authorized as follows: The paving of Fisgard Street, from Blanshard Street to Cook Street; Chester Street, from Fairfield Road to Oscar Street; Fairfield Terrace, from Moss Street to easterly terminus; Bond Street, from Moss Street easterly. These works are estimated to cost about $35,000, and, together with the Blackwood Street and Gorge Road works, recently passed, will absorb the $100,000 the city now has available for such work. The wage of $2 per day which it is proposed to pay was strongly objected to by Alderman Fullerton, who declared it is the thin end of the wedge of wage reduction and would be a bad advertisement for the city.

Alderman Okell, dealing with the whole situation as it affects civic works, declared that the sooner the working man realized that the city cannot keep a large number of men at work the better. The city, by giving this relief work at $2 a day, is doing the best it can, and if the workingmen will not accept it they may do without it.

Mayor Stewart stated it is hoped to dispose of $250,000 of short term notes, thus securing funds wherewith to continue the works, but he personally very much doubted if the notes can be negotiated at this time.

Jersey City will form juvenile police force to protect parks.

Thin People Can Increase Weight

Thin men and women who would like to increase their weight with 10 or 15 pounds of healthy "stay there" fat should try eating a little Sargol with their meals for a while and note results. Here is a good test worth trying. First weigh yourself and measure yourself. Then take Sargol—one tablet with every meal—for two weeks. Then weigh and measure again. It isn't a question of how you look or feel or what your friends say and think. The scales and the tape measure will tell their own story, and most any thin man or woman can easily add from five to eight pounds in the first fourteen days by following this simple direction. And best of all, the new flesh stays put.

Sargol does not of itself make fat, but mixing with your food, it turns the fats, sugars and starches of what you have eaten, into rich, ripe fat-producing nourishment for the tissues and blood—prepares it in an easily assimilated form which the blood can readily accept. All this nourishment now passes from your body as waste. But Sargol stops the waste and does it quickly and makes the fat-producing contents of the very same meals you are eating now develop pounds and pounds of healthy flesh between your skin and bones. Sargol is safe, pleasant, efficient and inexpensive. D. E. Campbell, Prescription Druggist, and other leading druggists in Victoria and vicinity sell it in large boxes—forty tablets to a package—on a guarantee of weight increase or money back.

D. E. Campbell, Prescription Druggist, Victoria, B. C.

GOVERNMENT'S GIFT TO BELGIAN FUND

Hon. Dr. Young, Acting Premier, Announces That an Appropriation of $5,000 Has Been Made.

The Hon. Dr. Young, Acting Premier, yesterday announced that the Provincial Government had decided to make a grant of $5,000 to the fund for the relief of the distress amongst the people of Belgium. This action is similar to that proposed by all the other Provinces in Canada, the lead in which movement was taken by Premier Gouin, of Quebec.

Those in charge of the local contributions received some surprises, all of a most gratifying character, yesterday. One was a cheque for $1,000 from one of the largest manufacturing firms of Vancouver Island, the headquarters of which are established in this city. The accompanying letter explained that half the amount had been volunteered by the employees, and that the remainder was voted by the management. Another came in a communication from Canon J. A. Leakey, of Ladysmith, who forwarded a draft for $23.05, the proceeds of a collection taken at the Sunday schools of the different denominations represented in the town. He also sent a splendid collection of clothing, etc., given by the people of Ladysmith, for those who have suffered so severely in Belgium as a result of the war.

Consul W. S. Terry announces that the second car of miscellaneous goods from Victoria is ready for shipment and will be forwarded to Montreal, where it will pass into the hands of the central committee without delay. He states that the work of collecting food and clothing, as well as cash, for the people who so badly need assistance is proceeding satisfactorily. The response has been admirable, and in many instances most affecting in the whole-hearted sympathy of citizens and their obvious wish of being of all the help in their power. Tickets had been issued for the raffles which are to be conducted in the disposal of the Shetland ponies, rig and harness and in that of the motor car, both of which were presented to the committee. The puppy dog "Liege" will be drawn for today, according to present arrangements.

Preparations are being made for a concert next Sunday night at the Pantages Theatre, when a collection will be taken to be applied to the Belgian fund. The 5th Regiment band is giving its services free of charge and three or four well-known local vocalists have consented to contribute selections. An address of an appropriate character has been promised by Rev. Monsignor Leterme, who is a native of Belgium, and, therefore, is in a position to give an extremely interesting talk on the small but valorous nation which has stood the brunt of the German invasion up to the present time.

In an article on the real need of the Belgians, The Montreal Star refers to the work of the central Canadian committee and gives a short talk with Mr. Prud'homme, who has assumed charge of the Dominion's contributions. This is apropos here because of the information given as to what is being done in the East. In part, it follows:

"Already a sum of over $70,000 had been collected in Montreal for the aid of the Belgian people, while the contributions in kind embrace almost everything, from mitts and hats to carloads of flour. With the Province's gift of $35,000, the total funds in sight are well on towards $100,000. It was stated by Mr. Prud'homme, who has taken charge of the work of receiving contributions to this fund, that he has received word from the Belgian Government that more than anything else the Belgian people needed clothing, either old or new. The message from the Belgian Government stated that so clean a sweep had been made by the German armies in ravaging the country that the people there were facing the Winter without any sort of supplies of suitable wearing apparel, while the majority had no means of securing proper clothing. With a hard Winter coming on it was asked that especially such clothing as was available be forwarded without delay.

"Fortunately, Mr. Prud'homme stated, the committee had received a very large amount of clothing, this embracing every kind imaginable, old and new, for boys, women, men and children. Much of this was second-hand, but, owing to climatic conditions here in Winter, the majority of the clothing sent in was just the sort of stuff needed to keep the Belgian people warm. A large room in the Beardmore building on St. Peter Street has been utilized as a storeroom for this material, and already forty or fifty tons of clothing have been collected there. This will be shipped within a week or two, with such supplies as come in in the meantime."

ATTRACTIVE PICTURES

Local Council of Women Have on Sale Pictures by Well-Known Artist

An opportunity for art lovers to acquire the possession of a really beautiful painting of Shawnigan Lake for a merely nominal price is now presented at the Employment Depot of the Local Council of Women at 637 Fort Street.

The picture in question is the work of an artist who has exhibited regularly in former years at the Royal Academy, as well as in many of the other London and Paris art galleries, and whose pictures have commanded high prices. Owing to the war and consequent business depression he is willing to take an exceedingly low price for his present work, examples of which will be on view from time to time at the Women's Council Depot.

The variety of the stock at the depot ranges from home-made cakes and jam to such widely different articles as kittens and a lady's side saddle (of the well-known Whippey make and as good as new). The latter will be sold very cheaply.

Another fur worker is being urgently asked for; great praise was accorded to the last one supplied by the Council, but she has now obtained a permanent post and cannot take any outside orders. Lavender is also greatly in demand, and as the garden supply will soon be exhausted, gifts of this fragrant bloom will be most gratefully accepted at the depot.

Blanshard Hotel—The hotel formerly known as the Kaiserhof has been renamed "The Blanshard," after a one-time governor. Mr. C. T. Marshall is in charge.

Your Home

will be happier this Winter if you include one of the many splendid Columbia instruments in the fireside circle. The Columbia graphophones and grafonolas have always set the standard for quality. Now—with the improved designs and new models—they offer you the widest range of choice. Make a mental note: Buy a

COLUMBIA

now. No matter what price you feel you can afford you can buy a Columbia that will be within your means. The Columbia is made in many models and the prices begin at a very low figure, but the quality remains the same, the best the money can buy.

Come in this week and hear a Columbia demonstration. No obligation attaches. If you find an instrument that suits you, a small payment will secure it for you and we will make easy terms for the balance. Don't miss this chance to increase the fun and cheer about the home fireside this Winter. Make this Winter a **Columbia Winter!**

TREES FOR CITIES

Experimental Farm Issues Bulletin Giving Information on Their Planting and Treatment

A bulletin entitled "The Planting and Care of Shade Trees" has just been issued by the Central Experimental Farm.

This publication, which has been prepared by Mr. F. E. Buck, B. S. A., assistant to the Dominion Horticulturist, contains practical directions and advice in the selection of shade trees, their planting, transplanting and subsequent treatment and care, with notes on the principal injuries and unfavorable conditions to which shade trees are subjected, especially in towns and cities. Lists of varieties suitable for street and home planting are also given.

This bulletin is No. 19 of the Second Series of the Experimental Farm, a copy of which will be mailed to those to whom the information is likely to be useful and who make application to the Publications Branch, Department of Agriculture, Ottawa.

SAVING FLOWER SEEDS

Experimental Farm Advises Gardeners to Save Their Home-Grown Seed in Time of War

The Central Experimental Farm of Ottawa has issued a circular letter advising the gathering of home-grown garden seeds.

Owing to the war in Europe, flower seeds may not be so plentiful next year or the year after in Canada, as a large quantity of the flower seed that is sold in the Dominion is grown in Germany, and the operations of growing and harvesting the seed there must have been much interrupted this year and may be carried on with difficulty next year.

Canadian-grown seed has been found to give very satisfactory results, and everyone who has a garden is advised to be on the safe side and save some seed this year. Even if there is an abundance of imported seeds, it will be interesting to compare the home-grown with that from abroad.

It is estimated by the Pennsylvania Company that passenger cars and locomotives have a useful life of twenty years, at the end of which time their values as scrap will be only about 30 per cent of their original cost.

Sidewalk tiles are being made in Italy of screenings from old brick pavements.

OBITUARY NOTICES

The death occurred yesterday morning at the Jubilee Hospital of Mrs. Florence Della Coulson, wife of Charles Alexander Coulson. Mrs. Coulson was aged 34 years, and was born in Ontario. Her late residence was at 2018 Meadow Place, Oak Bay. She is survived by her husband, two brothers at Tacoma, and one brother at Portland. The funeral will take place from 1745 Burns Street, Oak Bay, on Friday, at 3 p.m.

The death of Charles James Quayle occurred yesterday morning at the Royal Jubilee Hospital. Mr. Quayle was in his thirty-second year. He was born at Liverpool, Eng., and had resided in this country for the last six months. He leaves to mourn his loss a father and mother in England, one brother in Calcutta, India, and Mrs. Aleen, an aunt, of this city.

Births, Marriages, Deaths

BORN

ELLIS—On the 14th inst., to Mr. and Mrs. Wm. C. Ellis, Nelson Street, Esquimalt, a daughter.

STURGEON—On October 15, at 1365 Thistle Street, to Mr. and Mrs. Benjamin E. Sturgeon, a son. Both doing well.

DIED

COULSON—On October 14, 1914, at the Jubilee Hospital, Florence Della, beloved wife of Charles Alexander Coulson, aged 34 years. Born in Ontario.

The remains are reposing at the B. C. Funeral Chapel and will be conveyed to the residence of Mrs. Coulson, of 1745 Burns Street, Oak Bay, on Thursday afternoon, from whence the funeral will take place on Friday at 3 p. m., the Rev. Mr. [illegible] officiating. Interment will take place in Ross Bay Cemetery.

The British Columbia Old Country Public School Boys' Association

All old boys of British Public Schools, now in Vancouver Island, B. C., are requested to communicate the following information to the Secretary of the Association: (1) Name, (2) present address, (3) old school and date of residence there, (4) present occupation. A copy of the constitution and by-laws of the Association will be sent to every old public school boy who is not already a member thereof. It is hoped that all may join, so that a complete register of old public school boys now in Vancouver Island may be obtained. Old members who have not done so are requested to notify the Secretary of any change of address. Address to the Secretary,

BY MARIA LAWSON

MRS. F. E. SMITH

Sacramentum Supremum

Ye that with me have fought and failed and fought
To the last desperate trench of battle's crest,
Not yet to sleep, not yet; our work is nought;
On that last trench the fate of all may rest.
Draw near, my friends, and let your thoughts be high;
Great hearts are glad when it is time to give;
Life is no life to him that dares not die,
And death no death to him that dares to live.

Draw near together; none be last or first;
We are no longer names, but one desire;
With the same burning of the soul we thirst,
And the same wine tonight shall quench our fire.
Drink! to our fathers who begot us men,
To the dead voices that are never dumb;
Then to the land of all our loves, and then
To the long parting, and the age to come.

—Henry Newbolt, in London Times.

Wife of a Public Man

Not many women have had greater reason to feel proud of their husbands than Mrs. F. E. Smith, wife of the distinguished Unionist Member of Parliament. Like the majority of English wives whose husbands are young, Mrs. Smith has had to say good-bye to the scholar and statesman and see him enter upon a soldier's life.

At the beginning of the war, Mr. Smith was made chief censor, but he has evidently come to the conclusion that he would rather help to make news than say what shall be withheld and what published. This is but another evidence of how gravely the situation is regarded in the Motherland.

Frederick Edwin Smith is the son of a lawyer and is forty-two years old. He is himself a scholar, as well as an eminent lawyer. He has been fellow and lecturer of Merton College, lecturer in Oriel College, and has held the position of extension lecturer in modern history, as well as examiner in the final schools, Oxford.

It is, however, as a debater and Member of Parliament that Mr. Smith is best known to the public. He has been looked upon as one of the ablest men in the House of Commons. He is, too, noted as an author and reviewer. This brilliant student and man of affairs is now at the front, and will, it is not to be doubted, serve his King and country with the enthusiasm which is part of his nature.

He leaves behind him his wife and young children. He was married in 1901 to Margaret Eleanor Furneaux, whose father was a fellow of Corpus Christi College, Oxford.

Nothing about this war is more remarkable than the promptness with which the graduates and undergraduates of the great universities have answered the call to arms. The professors will, this year, lecture to small classes.

Doubtless Mrs. Smith, like many other women of distinguished families, will find in the service of others what consolation is possible for the absence of her husband and her own anxiety.

A Home for Business Girls

A home to be called "Rosary Hall" and to be managed by the Sisters of St. Joseph of Peace is to be opened today in Vancouver. It is intended for business girls and will afford opportunity for recreation as well as comfort. Similar homes have been opened in Seattle and Bellingham, and it is said they have been very successful. While all girls who can do so will pay for what they receive at a reasonable rate, provision will be made for the unemployed.

Made in Victoria

It is to be hoped that every woman who can do so will not only attend the exhibition of Victoria manufacturers but will take the trouble to inform herself thoroughly as to their worth and their cost.

Women have it in their power to foster industries to a greater extent than the Government. There ought to be a good home market for everything made in Victoria or grown here. Until lately we have been buying imported produce when quite as good grew at our own doors. The consequence is that after more than half a century little land in the vicinity of Victoria is properly cultivated.

Few women know of the things made in Victoria. More than one important industry would be in a flourishing state if it only commanded the home market.

It is true, however, that we cannot afford to buy a dear or poor article even if the result is to make our neighbor prosperous. A command of the home market must depend upon the excellence of the manufacture. But if the oatmeal, the biscuits, the soap, the stoves, the furniture, the shirts, the spice, to mention but a few of the things we all have learned are made here, are as good and as cheap as those that are produced elsewhere and cost no more, why should we not buy them? If they are inferior why not tell the maker where they are defective?

There are some things in everyday use, made in Victoria, that have gained a very wide market. Let us all set to work to learn what these are. The exhibition should be crowded every hour that it is open but this is not enough. It should be followed up by careful inquiry and intelligent observation. Buyers, whether they are men or women, cannot afford to allow themselves to be imposed upon.

On the other hand we know that the establishment of industries means work for our sons and daughters and prosperity for our city.

The Y. W. C. A.

There is activity in almost all the departments of the Young Women's Christian Association. Girls have a happy, cheerful and comfortable home in the building on Douglas Street, and in the Courtney Street home others have the opportunity of making the very most of small means.

For those who need it most recreation has been provided and in the various social clubs girls are brought together. The general secretary thinks and plans for the good of all, and nothing that concerns her "girls" is overlooked by her. The industrial classes are now full and working happily.

At a time when there are many calls from abroad, we should not forget that this institution is carrying on most important work. It has a claim on the services of young women of culture and of leisure, as well as on those who must deny themselves something to lend a helping hand. No work can be more truly patriotic than that done for the benefit of the young women of a city. There may be, before the Winter is over, a greater demand on the resources of the institution than there is now or has been in previous years. In Vancouver and other cities great efforts are being made to add to the institution in operation for the benefit of young women. This has not hitherto been found necessary in Victoria. We must, however, support loyally the directors of the Young Women's Association and its officers in their efforts to serve our girls.

Our Gardens

The middle of October is here and our gardens are still gay with flowers. Beds of dahlias are still in full bloom with their soft rich colors of many hues and tints. Chrysanthemums fill the air with their pungent scent and their whites, browns and yellows remind the Eastern Canadian of the Autumn tints of the maples. Nasturtiums seem to have saved their wealth of sweet and cheerful blossoms for this Autumn month and they peep out from their green leaves, hiding the ugliness of many a fence or adorning windows and walls. The Summer flowers still linger. There are still great bunches of sweet peas to be picked in gardens carefully tended, and lovely roses repay the care that has been taken. Marigolds and California poppies still turn their cheerful faces to the sun and the golden glow reflects its softened rays. In the border violets may be found hidden under their heart-shaped leaves, and the late convolvuli still remind us of the rainbows of our childhood. Gladioli still show their gorgeous blooms and the crimson salvias are in their glory, while the spicy odor of carnations still lingers.

To this list the lover of flowers can add many others, for geraniums and other exotics are still safe from the touch of frost and contrast beautifully with the green of lawns and boulevards, to which the early rains have given fresh life.

A Red Cross Nurse

Among the legion of women who have joined the Red Cross nurses is Mary Garden, the famous operatic singer. She is not alone among the artistes who have felt the call of their country or of humanity. She is reported to have said, as she left London:

"I may never sing again. I am intensely interested in my new work and impatient for real action. Having had no experience in nursing, I shall help to remove the wounded from the battlefield. It is dangerous, yes, but what does it matter? I am not afraid. I am a fatalist, and I might as well die through a bullet as in any other way.

"At least, I will be doing something useful. I expect to be at the front with the French troops next week. If I come through it with a whole skin perhaps I will be able to sing better than before. The experience will, at least, be broadening."

Those of us who read the dispatches wonder sometimes how a woman can endure the awful experiences of a modern battlefield. And yet the consciousness that they are of use serves to sustain the most sensitive.

TO TAKE CHARGE OF NAVAL STATION

Rear-Admiral W. C. Story, Retired, Appointed to Command at Esquimalt

OTTAWA, Oct. 14.—The Naval Department this morning confirmed the report that Rear-Admiral W. C. Story, of the British navy, has been chosen by the Government to take charge of the naval yards at Esquimalt during the war. Rear-Admiral Story came to Canada two years ago, on retirement from active service, and made his home at Guelph, Ont. At the outbreak of the war he offered his services to the naval branch, and they have been accepted.

The senior naval officer at Esquimalt har been advised of the appointment of Rear-Admiral Story, but the date of his arrival is indefinite.

SOCIAL AND PERSONAL

Mr. and Mrs. Victor Eliot are at present visiting in Vancouver.

Mrs. E. Wilfrid Sweetland, of 1829 Quamichan Avenue, will receive on the third Friday of each month.

Mrs. H. E. Levy will receive this afternoon and on the third Thursday of every month hereafter.

A Montreal dispatch announces that Mrs. H. Tye, of Victoria, has arrived there after a detention of two months at Bad Nauheim, Germany.

Mrs. L. C. Hanington returned home on Tuesday from a fortnight's vacation in Spokane, where she has been for a much-needed rest.

Mrs. Leighton Atkinson, of Calgary, is spending a short visit in this city as the guest of the Bishop and Mrs. Roper.

The marriage took place yesterday at San Diego, California, of Miss Olivette Petherick, youngest daughter of Mrs. J. C. Newbury, of Victoria, to Mr. Lee Adamson, of San Diego, California.

The many friends in Victoria of Mrs. Julia W. Henshaw, F. R. G. S., the well-known authoress and traveler, will be interested to hear of a lecture that she is preparing on "The Romance of Vancouver Island." The lecture is to be given in Vancouver next month, under the auspices of the local branch of the Women's Canadian Club, a society with which Mrs. Henshaw has been associated from its earliest days. A hundred of her own hand-painted lantern slides will illustrate the subject, which is sure to be treated with the utmost brilliance and insight, Mrs. Henshaw being not only an eloquent, but thoughtful speaker. A lecture tour which she undertook through Great Britain last Winter resulted in unqualified success. Mrs. Henshaw is an officer of the Provincial Chapter, I. O. D. E., and was present at its first annual meeting in Victoria, in the early Summer.

Grain Steamer Wrecked

HALIFAX, N. S., Oct. 14.—The British steamer Floriston, from Montreal for England, with a cargo of grain, went ashore three-quarters of a mile east of Scatterie Light, Cape Breton Island, last night, while proceeding to Louisburg for coal. There was a thick fog. The steamer is a total loss, but the crew were all saved. She was about 2,267 tons net register.

Fordon Stysdale LIMITED

Store Hours: 8:30 a.m. to 6 p.m. Saturdays Included

COMING EVENTS

Concert and Dance—A concert and dance will be given in Happy Valley schoolhouse on Friday, October 16, at 8 o'clock, in aid of the Patriotic Fund.

Dance Tonight—The Companions of the Forest will hold a social and dance tonight, at 9 o'clock, in the A. O. F. Hall, Broad Street.

Conservative Party—Ward 3, Conservative Association will hold a card party this evening, October 15. All voters in Ward 3 are cordially invited. 1218 Government Street.

Natural History Society—The regular meeting of the Natural History Society will be held on Monday, the 19th inst., in the King's Daughter's Rest Room. A paper will be read by Mr. Wallace, in addition to the usual business.

Auxiliary to Missions—St. John's branch of the Women's Auxiliary to Missions will hold its annual donation party and sale of work, on Tuesday afternoon and evening, October 20, for which donations of material for mission work or money will be thankfully received.

Parental Authority—At the adjourned regular meeting of the Women's Council, Mrs. Atkinson, an English lecturer, will speak on "Parental Authority," and the duties and privileges of parents in connection with the building up of the Empire. All members of affiliated societies, as well as representatives, are invited. The meeting will be held in the Y. W. C. A.

Sewing Evenings — The Victoria Club patriotic sewing evenings will commence this evening at 7:45 in the club premises, when all members and their friends are requested to attend. The object of the meetings is to make clothing for the Belgian refugees, men, women and children, and patterns and materials will be supplied, though any contributions of the kind will be gratefully received. Members are, however, desired to bring their own sewing cotton, needles, thimble, etc.

Welsh Reunion Social—The Victoria Cymrodorion Society will hold the first of its Fall and Winter socials tonight at 8 o'clock sharp in the Knights of Columbus' Hall, 726 Fort Street. The committee has arranged for a good programme, the most interesting item being the lecture to be given on the Hon. David Lloyd George by the Rev. Wm. Stevenson. Vocal and instrumental music and recitations will also be contributed. Refreshments will be served. It is hoped there will be a record attendance.

WRECK OF TITANIC

At Pantages Theatre this week Klein's spectacular mechanical reproduction of the sinking of the Titanic is being shown. Other enjoyable features of the programme are the musical sketch featuring Teddy McNamara and Queenie Williams; the Rosdell Classical Singers; Saunders and von Kuntz in a little bit of everything; and Lockhart and Laddie, comedy acrobats.

Italy Waits the Word

Italy as a nation is not neutral. It is clearly panting for action. An Italian who left Italy a week ago tells me that Italy will strike soon. Her army is on the Austrian frontier. It awaits the word like a hound in the leash. Italy, like France and England, is eager to free herself from the Prussian yoke.—James Douglas.

Gordons Limited

Here Are Some of the Latest Additions to Our Magnificent Stock

The New Waists Are Basques

They are all pretty and piquant and are worn outside the skirt. One style is of fancy striped cotton crepe with vest and girdle of pique, odd Florentine buttons, and lily collar of pique. Another is made in the same style entirely of fine white pique. In fact we have several different combinations of material, some being made of crepe trimmed with linen, others having trimmings of organdie. Every day now we are getting in more and more new styles. Prices from $1.25 to **$2.50**

Simplicity of Style Is the Main Attraction of These Suits

The new serge Suits for Autumn are charming in their simple lines—the kind of Suit that many women will need. They are of navy and black serge and are well made. The coat is cut on the new longer lines. The skirt gives more freedom at the foot. Some are made with a long tunic, others are pleated to resemble the tunic. Ideal for Winter climate here; coat or skirt can be worn separately. Better come in and look them over. The quality and style will captivate you. Price **$25.00**

Women's New Silk Dresses Closely Copy Paris, But Their Prices Are Very Moderate

$11.50 One of the finest values is a beautiful dress of soft messaline silk in a pretty shade of brown. It is made with a half length tunic, edged with a deep frill. The blouse is made with a vest of lace and an upright lace collar at the back. Silk revers, trimmed with fancy butterfly buttons, decorate each side of the vest. A broad crush girdle gives a good finish to this pretty but inexpensive dress.

$17.50 Is all you need to pay for this neat little dress of dainty soft messaline silk. The color is a pretty shade of navy blue. Some of its special features are the long tunic skirt, collar, jabot and cuffs of beautiful shadow lace, and pleated girdle of the same material.

$15.00 Is the price of this dress. The material is pussy willow taffeta, with trimmings of pretty Val. lace. Sleeves are set with overlapping seams. The small sailor collar and the cuffs are edged with lace. The skirt is made with the popular tunic.

$22.50 Silk Aurora Cloth in a brilliant shade of rose is the material of this moderately priced dress. The long tunic is very noticeable here. A vest of fine net is trimmed with pretty shadow lace, while the girdle, collar and cuffs are trimmed with bands of green messaline silk.

$25.00 Is a small figure for such a pretty dress as this. It is made of purple fancy silk cord in a very pretty style. Its principal features are dropped shoulders with overlapping seams, a smart pleated tunic, a dainty collar of fine organdie, and a vest effect of Roman striped silk cord.

OSAKA LINER MEXICO MARU

Which makes port this morning after a stormy trip from the Orient. She is the first vessel of the Osaka Shosen Kaisha line to inaugurate the extended service to Vancouver.

ROBERT DOLLAR CASE EXPLAINED

Washington Believes More Than Warranted Significance Attached to Ship's Failure to Change Registry.

WASHINGTON, Oct. 14.—More than warranted significance, it is believed, has been attached to the case of the steamer Robert Dollar, which cleared from the port of Rio de Janeiro, after the British consul had successfully protested to the Brazilian authorities against her transfer to American registry. While the incident has involved diplomatic interchanges, it has little diplomatic significance, for the complications are wholly in the matter of procedure.

The case has been cited by opponents of the administration's merchant marine policy as a warning of international difficulties that might follow efforts of the American Government to acquire ships of belligerent nations. This has little bearing on the case, it appears, and the failure of the Robert Dollar to get American registry should not be construed as an indication of a British policy to resist the transfer of ships to the American flag.

Bona fides was the only question raised at Rio de Janeiro. The British consul, it appears, requested the Brazilian authorities to refuse clearance to the ship until he could ascertain officially whether the transfer from the British to American flag was regular. It was an unusual case presented to him—perhaps the first time he had been confronted with such a question. He represented the British Government at that port and his duty was to protect his Government until all doubt as to the validity of the transfer could be dispelled. To be on the safe side the Brazilian authorities heeded his protest.

Questions of International Law

The American consul at Rio de Janeiro had received cable instructions from his Government to admit the Robert Dollar to American registry under the law recently enacted by Congress to meet the war emergency, but the British consul apparently had no instructions from his Government to release the ship from British registry. Delicate questions of international law presented themselves for answer. Was the ship owned by American capital? Was it a bona fide sale? or was the transfer made to avoid the consequences of war, and a violation of the law which forbids the transfer of a belligerent nation's ship to a neutral flag after commencement of hostilities, merely for protection? A consul is not expected to pass upon these questions of law, and realizing their importance and the novelty of the case he naturally waited for instructions before consenting to the transfer.

The question of bona fides could be settled only by presenting satisfactory evidence to the British authorities. This ship and all of the Dollar ships, though owned by American capital, the Robert Dollar Company of San Francisco, were nominally owned and operated by a British corporation and registered in British Columbia. They are engaged chiefly in the China trade. When the war placed British ships in danger of capture on the high seas and the new registry law made it possible for this company to bring their ships under the American flag, all that was required to make them eligible for registry was the execution of a bill of sale from the nominal British corporation to the San Francisco corporation. This having been done application was made for registry and was granted by the Washington authorities.

Presentation before the proper Canadian authorities of this bill of sale and other necessary documents to prove the validity of the transaction would have made possible the transfer without a hitch, allowing time for the slow moving Government machinery to work. Or had the bill of sale and proper documents been shown to the British consul at Rio de Janeiro it could have been accomplished. But all this would have required time and the idle ship, laden with a valuable cargo of lumber consigned to Canadian purchasers through New London, Conn., was costing her owners several hundred dollars a day, so it was determined to run the risk and sail under the British flag.

The difficulties that have arisen in the Robert Dollar case were apprehended from the start and discounted. The authorities here have no fear of any consequent entanglements with Great Britain.

Liberal Nomination

SASKATOON, Oct. 14.—John Boland, of Macklin, was today selected as the Liberal candidate for the Dominion constituency of Battleford, defeating the three closest competitors and winning on the second ballot. Mr. Boland is a rancher and comes from Prince Edward Island, but has been in the West for some years.

MEXICO MARU ARRIVES

Japanese Steamer Reaches Port at Daybreak From Hongkong and Yokohama

Terminating an average passage from the Orient, the Osaka Shosen Kaisha liner Mexico Maru, Captain Kobyashi, reaches port at daybreak today. But for the fact that she was practically hove-to for twenty-four hours in the face of a terrific gale when nearing the Coast, the Mexico Maru would have docked here today.

After discharging here, the Mexico Maru will proceed to Puget Sound and thence to Vancouver. She will be the first steamer of the fleet to make the call at the Terminal City.

CAPTAIN EVANS ON MISSANABIE'S BRIDGE

Captain Evans, formerly commander of the steamship Lake Manitoba, is in charge of the bridge of the new C. P. R. transatlantic liner Missanabie, which is due to reach Montreal today, completing her maiden voyage from Liverpool.

The Missanabie is the first cruiser stern merchant vessel to make the passage up the St. Lawrence. She is a sixteen-knot ship, but on her recent measured trials she averaged seventeen and a half knots. The Missanabie is due to sail outward from Montreal on October 22 and the whole of her accommodation is reported to have been taken up.

ELUDED CAPTURE

PORTLAND, Ore., Oct. 14.—Within the last forty-eight hours three sailing vessels—the German ship Arnoldus Vinnen and the Norwegian barks Semantha and Uranie—under charter to transport grain from Portland to Europe, have arrived in the Columbia River. The German, coming from Port Natal in 112 days, was the first to put in an appearance. A short time later the Semantha arrived from Callao, from which port she had been out fifty days. The Uranie, 106 days from Buenos Ayres, was brought inside by a Port of Portland tug.

Because she flies the German flag, the Arnoldus Vinnen probably will follow the example of other craft of the same nationality by going out of commission temporarily, or until the war clouds clear to some extent. She makes the third idle German in the river, the other two being the Kurt and Dalbek. The Kurt is lying at Astoria and the Dalbek at Portland.

CYCLOPS CONVEYED TROOPS TO LONDON

Victoria Trader Put Into Gibraltar on Her Last Homeward Voyage to Pick Up Regiments at Fortress.

Although not requisitioned as a transport, the Blue Funnel Line steamship Cyclops, Captain Arthur, on her last homeward voyage from Victoria, carried troops home from Gibraltar to the United Kingdom. The Cyclops was picked up by wireless and ordered to put into the Mediterranean fortress to pick up the regiments stationed there and transport them to London. These forces comprised part of the British expeditionary army first shipped over the Channel from England to France.

The Cyclops is now on her return voyage from Liverpool to Victoria. The local agents of the company state that she has a full cargo for the Orient, in addition to 1,400 tons of general European freight for North Pacific ports. Her European cargo for Victoria amounts to 360 tons, while she has 320 tons for Vancouver and 200 tons for Seattle. These shipments will be considerably augmented at ports in the Far East, and it is expected that the Cyclops will have a pretty full cargo aboard by the time she clears Yokohama for Victoria.

Talthybius to Sail

The liner Talthybius, of the same fleet, will clear Vancouver at 12 p.m. today for Union Bay to load bunkers before shifting to Seattle and Tacoma to complete cargo for the outward voyage. She will take out a capacity cargo, and her steerage space will be severely taxed by Chinese passengers returning to the Orient. Already 1,000 Chinese passengers have been booked, and it is expected that this number will be increased by the date of sailing.

Antilochus Coming On

Right on schedule, the Blue Funnel steamship Antilochus, Captain Flynn, sailed on October 10 for Victoria, via the Orient. The Ixion arrived at Liverpool on Tuesday last from Victoria.

It is reported that the Calchas, which is the next Blue Funnel liner to arrive on this Coast, is running twelve days behind schedule.

FLEET OF STEAMERS NOT YET RELEASED

All Sailings of Allan Line Out of Montreal for Liverpool Cancelled Up to November 5 Next.

Up to the present time no word has been received at the local offices of the Allan Line as to when the big fleet of steamships will be released by the British Admiralty. In the absence of such news it is impossible to state when the regular service of the company will be resumed. It has been learned that the sailing of the steamship Scotian, from Montreal, on October 29, has been cancelled, and as a result of this cancellation, the next steamer, the Hesperian, will not be dispatched from the St. Lawrence port until November 5. In the Glasgow service, the Pretorian will sail from Montreal on October 24, the Numidian on November 7, and the Pretorian on November 21.

The Boston service will be maintained by the Pomeranian and Sardinian, sailing from Boston to Glasgow on November 18 and December 2, respectively. The steamship companies operating out of the St. Lawrence have raised the rates for both west and eastbound passage to and from British ports, $10 for first class passengers, $5 for second class passengers, and $2.50 for third class passengers.

Immediately after the war started the various lines operating from Montreal raised the first class rates by $20, the second class rates $15, and the third class rates $10, but this was recalled on account of the conditions developing in the trade. This more moderate raise replaces the first raise.

The latest raise means that the fare at present for first class is $90, for second class $55, and for third class $33.75.

The present prices for passage on all classes of three-class boats are a minimum of $90 to $105 for first class passage, $55 to $60 for second class passage, and $33.75 to $36 for third class passage. One class boats will draw from each passenger $50 and upwards.

BUENAVENTURA IS NOW REPORTED SOLD

PORTLAND, Ore., Oct. 14.—Information reaching here from England yesterday states that the British steamship Buenaventura has been sold by the Isthmian Steamship Company, Limited, of London, to the United States of America. It has not been ascertained to a certainty whether this means that the vessel has been purchased by the Government of the United States or by Americans, who plan to put her under the Stars and Stripes.

MAY GIVE IMPETUS TO LUMBER TRADE

Blue Funnel Line Announces Substantial Reduction in Lumber Rates From This Coast to United Kingdom.

Owing to a slight reduction in war risk insurance the Blue Funnel Line, operators of a large fleet of steamships between Victoria and Liverpool, are in a position to announce a considerable reduction in rates for the handling of lumber from ports on the North Pacific to London, Liverpool and Glasgow.

According to an announcement made yesterday by H. B. Davenport the rate on lumber will, until further notice, be 80 shillings per thousand feet, board measurement, to London and Liverpool, and 85 shillings to Glasgow. This rate becomes effective immediately. Following the outbreak of the war the rates on all freight took a decided jump and the last rates quoted on lumber were 100 shillings to London and Liverpool and 105 shillings to Glasgow.

It is expected that the reduction in rates will give an impetus to the shipment of lumber from this Province to the United Kingdom, where there is a large market for British Columbia timber.

Shippers have been complaining that it was impossible to ship lumber at the existing rates for which the war risk insurance was responsible. The reduction of war risk insurance has enabled the Blue Funnel Line to give its shippers the benefit.

Farley Gets Away

After discharging at this port, the British steamer Farley, Captain Lawson, departed yesterday afternoon for Puget Sound to load general freight for the United Kingdom.

CITY OF VICTORIA

Auction Sale of Real Property and Buildings

Under instructions from His Worship the Mayor and Board of Aldermen, I will sell by Public Auction at the City Council Chambers, City Hall, Victoria, B. C., on Thursday, the 15th October, 1914, at the hour of 2 o'clock p.m., the following described real property and houses situate in the City of Victoria.

REAL PROPERTY

PANDORA STREET

1. Part of lots 25 and 26 of section 24-27 Spring Ridge, Map 260 (96.5 ft. by 91.3 ft. approximately), containing 8,814 square feet more or less, together with the two-storey dwelling known as 1219 Pandora Street.

2. Part of lots 23 and 24 of sub lot 39 in sections 74 and 75, Fernwood Estate, Map 164 (120.66 ft. by 89 ft. approximately), containing 10,755 square feet more or less, together with the two-storey dwelling known as 1517 Fernwood Road.

3. Part of lot 19 of sub lot 39 in sections 74 and 75, Fernwood Estate, Map 164 (50.8 ft. by 60.3½ ft.), corner Harrison and Pandora Streets, containing 3,055 square feet more or less, together with the one and a half storey dwelling known as 1361 Pandora Street.

4. Part of lot 17 of sub lots 35 and 35a, Fernwood Estate, Map 159 (23.25 ft. by 122 ft. approximately) Harrison and Pandora Streets, containing 2,159 square feet more or less.

5. Triangular part of lot 1 in lots 33 and 34, sections 74 and 75, Fernwood Estate, Map 749, 85 feet frontage on Stanley Ave., corner of Pandora, containing 4,680 square feet more or less, together with the two-storey dwelling known as 1432 Stanley Avenue.

6. Part of lot 28 in lots 33 and 34, Fernwood Estate, Map 658, 24.45 feet frontage on Stanley Avenue, containing 1,865 square feet more or less.

7. Part of lot 29 in lots 33 and 34 Fernwood Estate, Map 658, having 9 feet frontage on Stanley Avenue and containing 1,556 square feet more or less.

8. Part of lot 4 of lot 32, section 74, Map 109, having a frontage of 4 feet on Elford Street and a back width of 17.65 feet, and containing 1,190 square feet more or less.

9. Part of lot 4 of lot 32, section 75, Map 109, having a frontage of 29 feet on Elford Street and containing 2,489 square feet more or less.

CHAPMAN STREET

21. Part of lot 30 of lot 37, Fairfield Farm Estate, Map 324, size, 49 ft. by 65.4 feet, and containing 3,204.6 square feet more or less.

FORT AND MOSS STREETS

21a. Parts of acre lots 1 and 2, Spring Ridge, having a frontage of 177.4 (more or less) feet on Fort Street and containing 4,871 square feet more or less.

21b. Part of sub lot 1, section 75, Victoria District, now Victoria City, containing 2,826 square feet more or less, and bounded by Pandora Ave., Fort Street and Oak Bay Ave.

BUILDINGS ONLY

22. No. 1375 Pandora Street one and a half storey dwelling.
23. No. 1377 Pandora Street, one and a half storey dwelling.
24. No. 1425 Stanley Avenue, one and a half storey dwelling.
25. No. 1429 Stanley Avenue, two-storey dwelling.
26. No. 1532 Elford Street, one and a half storey dwelling.
27. No. 2265 Belmont Avenue, one-storey dwelling.
28. No. 2301 Shakespeare Street, one and a half storey dwelling.
29. No. 2302 Howard Street, one-storey dwelling.

TERMS OF SALE

Ten per cent of purchase price of real property (that is land or land with building) to be paid at time of sale and the balance on completion of deeds, and spot cash where houses are sold separately.

Houses, where sold with land, are to be moved back to the satisfaction of the City Engineer, or if only a house is sold, same must be moved away within two months from time of sale.

Plans and description can be seen at my office, City Hall.

EDWIN C. SMITH,
Treasurer of the Corporation of the City of Victoria.

Victoria, B. C., October 8, 1914.

SHORT WEIGHTS OR MEASURES

All complaints of short weight or measure will be attended to by the undersigned, at the City Hall.

A. G. ROBERTSON,
Fair Weights and Measures Officer.

City Clerk's Office, Victoria, B. C., October 5, 1914.

MUNICIPAL VOTERS' LIST FOR 1915

The Municipal Voters' List of the City of Victoria is composed of the names of three classes of voters, namely: Those who vote as—

1. **Assessed owners of property of the assessed value of not less than $100.00;**
2. **Householders;**
3. **Licensees.**

1. embraces—

(a) **Assessed owners who are not holders of an agreement of purchase of the property upon which they desire to qualify;**

(b) **Those who are:** Before the assessed owner of property held under agreement to purchase can have his name entered on the voters' list he is required to file with the Clerk, or Assessor, before the closing of the voters' list (on the 30th day of November next, at 5 p.m.) a **statutory declaration** proving that he, or she, is the holder of the **last agreement to purchase land or real property,** or is the **last assignee thereof,** by the terms of which such holder, or assignee, is liable to pay the taxes, has paid the current year's taxes, and is a British subject.

(c) **Authorized representatives of Corporations:** The duly authorized representative of a corporation must be a resident of this Province and a British subject, and the corporation must have its name on the voters' list and be the assessed owner of lands, or improvements, in the municipality of the assessed value of not less than $100.00.

2. **"Householder"** shall extend to and include any person of the full age of 21 years who occupies a dwelling, tenement, hotel or boarding house, who has been a resident in the municipality from the 1st day of January of the current year, and who shall, unless exempted by the provisions of the proviso at the end of subsection 167 of section 54 of the Municipal Act (which exempts certified efficient militiamen and persons over the age of 60 years from paying road tax), have paid directly to the municipality all rates, taxes or assessments which are not chargeable on land, which rates, taxes or assessments, so paid shall amount to not less than two dollars, due to the municipality for the current year, other than water rates or taxes, or license fees for dogs.

3. **"Licensee"**—This voter is one who carries on business in the municipality and is the holder of a trades license, the annual fee of which is not less than $5.00.

2. and 3. In the case of a holder of a trades license, and in the case of a householder, he, or she, shall, during the month of October in each year, make and cause to be delivered to the Clerk of the Municipality, a statutory declaration made and subscribed before a Supreme or County Court Judge, Stipendiary or Police Magistrate, Commissioner for taking affidavits in the Supreme Court, Justice of the Peace, or Notary Public, or Municipal Clerk, in form, and to the effect of Form 1 in the Schedule of the said Act in the case of the holder of a trade license, and of Form 2 in said Schedule in the case of a householder.

4. No declaration to qualify as a householder, or license-holder, can be accepted by the Clerk unless it is delivered within 48 hours after it is made.

5. No person shall, under any circumstances, be entitled to more than one vote for Mayor or Aldermen at the same election, except a voter who also acts as the duly authorized agent of a corporation as above mentioned.

6. No person who is not a British subject can have his name placed upon the voters' list or be allowed to vote at any municipal election.

7. No Chinese, Japanese, or other Asiatic or Indian are entitled to vote at any municipal election for the election of Mayor or Aldermen.

8. No application to the Police Magistrate, or a Judge, for an order to add to the voters' list the name of any person alleged to have been improperly omitted therefrom, shall be heard, or order made, after the 31st day of December next.

Forms of declaration may be obtained, and the necessary declarations made, at the office of the City Assessor, second floor, City Hall, Douglas Street.

WELLINGTON J. DOWLER,
C. M. C.

Victoria, B. C., October 1, 1914.

NOTICE TO PRINTERS

TENDERS will be received at the office of the undersigned on, or before, Monday, the 19th instant, at 4 p.m., for printing and binding the Municipal Voters' List for the City of Victoria for the year 1915.

Specifications may be seen at the office of the undersigned.

The lowest or any tender not necessarily accepted.

WELLINGTON J. DOWLER,
C. M. C.

City Clerk's Office, Victoria, B. C., October 8, 1914.

EXECUTORS' NOTICE TO CREDITORS

In the Matter of the Estate of Sarah Jane Brett, Late of the City of Toronto, Widow, Deceased.

Notice is hereby given pursuant to the Statutes in that behalf, that all Creditors and other persons having claim against the Estate of the above-named Sarah Jane Brett, who died on or about the 23rd day of August, 1914, at the City of Victoria, British Columbia, are required to send by post prepaid, or deliver to the undersigned, the Executors of the last Will and Testament of the said Deceased, on or before the 2nd day of November, 1914, their names, addresses and full particulars of their claims duly verified, and the nature of the securities, if any, held by them, and after the said 2nd day of November, 1914, the said Executors will proceed to distribute the assets of the said Deceased among the persons entitled thereto, having regard only to the claims of which they then shall have had notice, and the said Executors will not be liable for the said assets or any part thereof to any person or persons of whose claims they shall not then have had notice.

The Toronto General Trusts Corporation, Executors of Estate of Sarah Jane Brett, 83 Bay Street, Toronto, Ontario.

MALONE, MALONE & LONG,
Toronto, Solicitors for Executors

Dated this 23rd day of Sept., 1914.

NOTICE TO CREDITORS

In the Matter of the Estate of Lawrence Macrae, Deceased

Notice is hereby given that all creditors and others having claims against the estate of the said Lawrence Macrae, who died on or about the 10th day of September, 1914, are required, on or before the 16th day of November, 1914, to send by post prepaid or delivered to Messrs. Mackay & Miller, of 514 Belmont House, Victoria, B. C., solicitors for Lawrence Paschal Macrae, administrator of the estate and effects of the said deceased, their Christian and surnames, addresses and descriptions, full particulars of their claims, a statement of their accounts, and the nature of the securities (if any) held by them.

And further take notice that after such last-mentioned date the said administrator will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which he shall then have notice, and that the said administrator will not be liable for the said assets, or any part thereof, to any person or persons of whose claims notice shall not have been received by him at the time of such distribution.

Dated the 14th day of October, 1914.

MACKAY & MILLER,
Solicitors for the Above-Named Administrator.

S. V. ROBERTS
CHARTERED ACCOUNTANT AND AUDITOR

LEAGUE BASEBALL RESULTS

Coast

At Oakland—(First), Portland, 4; Oakland, 1. (Second), Portland, 7; Oakland, 1.

At San Francisco—Mission, 1; Los Angeles, 15.

At Los Angeles—San Francisco, 4; Venice, 5 (10 innings).

SAYS INMAN PLAYED UNDER DIFFICULTIES

Expert Who Saw First Match Asserts That Englishman Was Unable to Do Himself Justice

Concerning the first international billiard contest between Willie Hoppe, the American champion, and Melbourne Inman, the English champion, a well-known Montreal expert who saw the match has the following to say:

"The conditions under which the first series of games for the championship between Inman and Hoppe have been played have not proven at all satisfactory to the English champion. The balls, the cloth on the table, the cushions all seemed wrong and, as Inman expressed himself after one game, 'I am not making a showing worthy of an average amateur simply because I cannot get the tools in this country to play with.'

"The balls were of unbleached ivory and they 'jumped.' The cloth was wrongly put on the table and the cushion to the right of the right hand top pocket was causing trouble for him. The unbleached balls made an ordinary drop cannon an uncertainty. The balls rolled fast on the tightly stretched cloth and it was a big trick to make a hazard in the top pocket either of the red or white.

"Inman kicked and worried. He was not nervous but disgusted. He asked to have the balls bleached and the side rail examined.

"What did they find? Someone had poured a liquid on the rubber along the rail that had hardened it like a piece of wood. The result of this investigation caused quite a lot of comment and it vindicated Inman.

"He had to show what he could do under the new conditions and in Friday afternoon's game Hoppe only got 142 and at night 212 to Inman's 600. Inman had a high run of 221 and another of 97.

"It was a foregone conclusion that Hoppe would win the New York match but he will be lucky if he has a look in at all in any other of the five cities in which matches are to be played.

"There is one thing about Hoppe that impresses the spectator that does not know him. He never raises an objection and will accede to any request his opponent may make. He is not in the least temperamental and takes conditions as he finds them.

"While he has been a sufferer to a certain extent from the defects in the English equipment he has not complained. He has backed up Inman's claims and while the games are for a championship the two opponents are on most friendly terms."

ENGLISHMAN OVERCOMES LEAD HELD BY HOPPE

CHICAGO, Ill., Oct. 14.—Melbourne Inman, champion of the world at English billiards, overcame the slight lead held by Willie Hoppe in their session at the English game tonight. Hoppe's grand total was 1,364, and Inman's 1,336, at the end of the afternoon game. During the afternoon session Hoppe was at his best at the English game, making high runs of 69 and 42. His high runs tonight were 32 and 30.

Night scores: Inman—170, 24, 0, 160, 30, 29, 13, 4, 14, 0, 0, 2, 5, 0, 7, 140; total, 600; grand total, 1,936. High runs, 170, 140; average, 23 4-16.

Hoppe—30, 9, 13, 0, 1, 0, 0, 0, 6, 3, 6, 0, 32, 3, 14; total, 130; grand total, 1,494. High runs, 34, 30; average, 8 10-15.

Certificate No. 273.
BRITISH COLUMBIA RAILWAY ACT
Chapter 194, R. S. B. C. 1911
CANADIAN NORTHERN PACIFIC RAILWAY

The Canadian Northern Pacific Railway Company having submitted, in accordance with the provisions of Sub-Section (2) of Section 174, Chapter 194, British Columbia Railway Act, R. S. B. C. 1911, plan showing elevations and details in connection with the proposed structure to be used at the following point:

(1) Frame trestle crossing at Christmas Street, Station 756-77, Mile 0.9, Patricia Bay Branch.

And, having applied for approval thereof, and the said plan, elevations and details having been approved by me, I do hereby, in pursuance of the provisions of Sub-Sections (2) and (3), Section 174, British Columbia Railway Act, R. S. B. C. 1911, issue to the Canadian Northern Pacific Railway Company this certificate of approval of the said plan, elevations and details aforesaid.

In witness whereof I have hereunto set my hand and seal this eighth day of October, in the year of our Lord One thousand nine hundred and fourteen.

THOMAS TAYLOR,
Minister of Railways.

TWO INTERNATIONAL FOOTBALL EVENTS

Thistles of Victoria Invited to Play Celtics of Seattle This Month—All-Star Inter-City Match.

It is probable that the Thistles soccer team will go to Seattle on October 25 for a game with the Celtics of that city. The Scotsmen across the line are anxious to try conclusions with their fellow-countrymen of the local league and have written asking what guarantee would be required to make the match. This is one of two international football events in prospect for the near future. A local all-star team may play in Seattle on November 8 against a picked eleven. This is an open date for the Seattle league and it is thought likely that the Victoria Association will take advantage of the opportunity to return the visit paid to this city by the Nationals a month or so ago.

The coming Saturday will see the senior league teams matched in the same way as they were in the opening round, with the Thistles opposed to the Sir John Jacksons and the James Bays playing the Victoria Wests. Opinion as to the relative merits of the teams has been rather upset by the defeat of the Jacksons by the Bays last Saturday, and there is no telling what may happen this week-end. The Jacksons are reported to have suffered by minor injuries to several of their players, among them the Kerleys and Green, but these players are expected to be in condition to do themselves justice in a week or so at the latest. To judge by the game they played last Saturday the James Bays may be due for one of those bursts of speed which they developed intermittently last season, and it is quite on the cards that the Wests will find themselves up against an exceedingly hard proposition in the fourth round.

Last Saturday's Old Country football results which were delayed in transmission follow: First division—Bradford City 3, Aston Villa 0; Burnley 1, Sheffield United 2; Chelsea 3, Liverpool 1; Everton 4, Bradford 1; Manchester City 1, Newcastle United 1 (tie); Notts County 1, Blackburn Rovers 1; Sheffield Wednesday 1, Manchester United 0; Sunderland 4, Bolton Wanderers 3; Tottenham Hotspur 3, Middlesborough 3 (tie); Westbromich Albion 0, Oldham Athletic 0.

Second division—Arsenal 2, Clapton Orient 1; Birmingham 0, Stockport County 1; Blackpool 3, Botts Forest 0; Bristol City 3, Glossop 1; Bury 1, Barnsley 2; Derby County 1, Leeds City 2; Grimsby Town 1, Fulham 1 (tie); Huddersfield Town 2, Wolverhampton Wanderers 0; Lincoln City 0, Hull City 3; Preston North End 1, Leicester Fosse 0.

Southern League — Gillingham 4, Swindon Town 0; Brighton and Hove Albion 1, Portsmouth 0; Cardiff City 3, Lutton Town 0; Crystal Palace 0, Exeter City 0; Norwich City 1, South End United 1; Westham United 2, Queen's Park Rangers 2; Plymouth Argyle 0, Millwell Athletics 0; Watford 2, Bristol Rovers 0; Northampton 3, Croydon Common 2; Southampton 2, Reading 4.

Irish League—Cliftonville 0, Glentoran 3; Bohemians 2, Linfield 5; Glenavon 0, Distillery 3; Celtic 1, Shelburne 0.

Northern Union—Sanford 9, Leigh 0; Oldham 22, Broughton Rangers 4; Rochdale Hornets 13, Swinton 8; Barrow 18, Huddersfield 6; Runcorn 7, Warrington 20; Leeds 0, Wigan 19; Halifax 18, Kingston Rovers 7; Battley 19, Keighley 0; York 7, Wakefield Trinity 2; Bradford 12, Dewsbury 7; Hull 21, Hunslet 2; St. Helens 12, Widnes 5.

WORLD'S CHAMPIONS TO TOUR SOUTH AMERICA

BOSTON, Oct. 14.—The world's champion Boston Nationals will make a tour of South America next year, according to an announcement by Frederico Alfonso Pezet, Peruvian Minister to the United States, at a baseball dinner given by the Chamber of Commerce. Mr. Pezet said that Manager Stallings, of the champions, had informed him that he would send two teams to make the tour. The Minister expressed the belief that the trip would be the means of furthering trade between this country and South American republics.

RULES ARE ADOPTED BY FIELD HOCKEYISTS

Rules and regulations were discussed at length at yesterday evening's meeting of the Victoria Field Hockey Association, held at the Ritz Hotel, and the recommendations of the committee appointed to draw these up, were adopted. Encouraging reports of the prospects for the renewal of the game on a well-established basis were received. The meeting was largely attended. It was decided to hold the next general meeting on the last Wednesday in the month.

ADJOURNED MEETING OF AMATEUR UNION

VANCOUVER, B. C., Oct. 14.—Discussion as to Joe Lally's action in the Mann Cup transfer to Calgary will occupy the attention of the delegates to the British Columbia Amateur Athletic Union's adjourned annual meeting Friday night in this city. It is likely that an effort will be made to hold the cup on the Coast, as it is felt that Lally took the matter into his own hands.

FRENCH RUNNER IS VICTIM OF WARFARE

PARIS, Oct. 14.—Jean Bouin, champion cross-country runner of the world, has been killed at the front. He had been promoted to the highest rank of non-commissioned officer for gallantry in the Battle of the Marne.

Jean Bouin, with Hans Kolehmainen, of Finland, was the greatest middle distance runner in the world of the present day.

Victoria Lacrosse Meeting

An executive meeting of the Victoria Lacrosse Club will be held at Dr. G. A. B. Hall's office at 8 o'clock on Friday evening.

Next Manager of Yankees

BOSTON, Mass., Oct. 14.—"Wild Bill" Donovan is slated to be the next manager of the New York Yankees. Heine Wagner is being groomed to succeed Donovan as the manager of the Providence Grays.

INDOOR BOWLING SERIES

Outlaws Win Two of Three Games From Elks' Club in City League Match

The Outlaws won two of three games from the Elks Club in a City League bowling match on the Arcade Alleys on Tuesday night. Clayton made high score and high average. The Wholesalers and Ramblers will play this evening. The scores:

Elks Club

	1st	2nd	3rd
Paint	134	172	178
Ames	116	135	135
Parr	136	142	158
Reilley	166	174	151
Turner	137	141	145
Totals	689	764	767

Outlaws

	1st	2nd	3rd
Prochnow	135	142	119
Billingsley	138	165	152
Patterson	144	119	115
S. Patterson	116	135	135
Clayton	182	230	187
Totals	715	791	708

HOCKEY CLUBS WILL MEET IN VANCOUVER

Annual Gathering of Pacific Coast League Managers Set for Oct. 22—Toronto Wants Frank Nighbor.

Representatives of the Victoria, Vancouver and Portland hockey clubs will gather in Vancouver on Thursday, October 22, for the annual meeting of the Pacific Coast League. Mr. Frank Patrick, president of the league, yesterday announced that the meeting would be held on that date. Portland's application for a berth in the league will be considered, officers elected and the season's schedule adopted.

So far, players who were in the league last season have failed to return their contracts, but it is a little early yet, and the documents will probably show up early next month. Practices will be started on December 1.

It is doubtful whether Sibby Nichols will be seen in action this year. Sibby is bugler on one of the Empress liners which is now in the Admiralty service, and was last heard of in Far Eastern waters. Frank Patrick has received a wire from Jack Marshall, of Toronto, asking him to put a price on Frank Nighbor's services.

MONTREAL, Oct. 14.—Headquarters of the promoters of the new professional hockey league, in which it is hoped to include clubs from New York and Boston and two Canadian clubs, announced yesterday that the Boston National baseball management now contemplates placing a hockey team in the new league. Hockey is popular in Boston, and a professional team there would be almost sure to pay, it was added.

On the other hand, a prominent N. H. A. official is reported to have said today that any New York team entering a professional hockey league this Winter would be with the N. H. A. and not the proposed new organization.

SPORTSMEN OF CITY RESPOND TO APPEAL

Three Events Will Be Held in Aid of Patriotic Fund—Motor Car and Cycle Races Arranged.

Sportsmen of the city are responding enthusiastically to the general appeal for assistance issued by patriotic societies. No less than three sporting events, to be held in the near future, are being arranged for the express purpose of swelling funds that are being raised to relieve distress consequent upon the war.

It was announced yesterday by Mr. E. J. Cameron, the prime mover in the promotion of motor car and cycle races here, that another meeting would be held at the Willows on Saturday afternoon, and the entire proceeds would go to the Patriotic Fund. All the riders and drivers have consented to give their services free, the use of the track has been donated by the Agricultural Association, and the promoters are now working on a programme that will attract a record-sized crowd. No effort will be spared to make the event the financial success it deserves to be.

A week from Saturday a benefit sporting event of unusual possibilities of attraction will be put on at the Royal Athletic Park under the joint management of the local police and the 88th Fusiliers. Headlining the bill will be a soccer football match between the soldiers and policemen. Other features will be drills of various kinds, sword dancing, music from a couple of bands, and probably tests in athletics. The proceeds will be contributed to the patriotic fund. The use of the park has been donated by the owner, Mr. Joshua Kingham.

In preparation for the football match, members of the police force held a practice yesterday and, as a result, several of them went on their beats feeling somewhat stiff. They claim to have some players in their ranks who were prominent in the "round-ball" game a few years back, and are confident that they will be able to give the soldiers a good game.

With regard to his plans for a patriotic fund boxing and wrestling tournament, Manager W. H. Davies, of the Vancouver Island Athletic Club, stated yesterday that he had been notified that the Drill Hall had already been engaged for the week of October 19. This makes it impossible for him to stage the tournament on the date selected, which was October 19, and he has now proposed a date in the following week, which he believes will be suitable to all concerned. He does not think the postponement will do any harm. Rather, he thinks it will fit in nicely with his plans to make the tournament an Island championship affair, as the intending competitors will have more time in which to do their training.

FOUR ENTRANTS FOR SCHOOL RUGBY SERIES

Precautions Are Taken to Prevent Inequality of Competition in School and Intermediate Rugby Series.

Four entries were received for the school rugby series at the meeting of school and intermediate club representatives held yesterday afternoon. Two teams are entered from the High School, one from University and one from Central. The Sweeney & McConnell Cup will be at stake in this series.

The management of the school series was entrusted to a committee composed of Messrs. Jenkins, Central School, McEacheran, High School, and Kilpatrick, University School. It was decided to have the opening round played in the week ending October 24, with matches between High School and Central School and between High School and University. In order to protect the youthful Central players from competition with much heavier lads a motion was passed prohibiting the playing of boys weighing over 125 pounds against the Centrals. There are no restrictions except in the case of matches in which the Centrals are drawn.

A somewhat similar precaution was taken to prevent, so far as is possible, inequality of competition in the intermediate series. In this, when schools are playing schools, or regiments playing regiments, no special limitations will be enforced, but when schools are playing regiments it is required that the members of the regimental pack shall not exceed an average weight of 160 pounds. Schools may not play masters when drawn against one another, although they may do so in their matches with the regiments.

Civic Athletic Meeting

A special general meeting of the Civic Athletic Association will be held tonight at the City Hall, when business of importance will be dealt with. A full attendance of members is requested.

PLAYERS REGRADED BY FOOTBALL BODY

Junior Schedule Adopted by Victoria Soccer Association—Three Unruly Players Are Given Week's Suspension.

Two players were regraded at yesterday's meeting of the Victoria Soccer Association, held at the Y. M. C. A., J. Cummings, who just recently entered senior ranks, intending to play for the James Bays, and Dave Dougan, a veteran of many seasons' senior experience, being granted second division standing. Dougan will play goal for the Civic Service, and Cummings will resume his position on the forward line of the Empire team.

For rough tactics in last Saturday's round, Davidson, of the C. P. R.; Heywood, of the Oak Bays; and Lane, of the Empires, were suspended for a week.

Saturday's League matches were arranged as follows:

Senior

Thistles vs. Jacksons, Beacon Hill (lower); referee, Mr. Okewell.

Victoria Wests vs. James Bays, Dallas Road grounds; referee, Mr. Allen.

Intermediate

Fairfields vs. Empires, Beacon Hill (upper); referee, Mr. Lorimer.

Oak Bays vs. Civic Service, Oak Bay grounds; referee, Mr. Goward.

Wests vs. C. P. R., Heywood Avenue grounds; referee, Mr. Locke.

The following schedule for the junior series was adopted:

October 24—Wests vs. High School A; Centaurs vs. Y. M. C. A.; High School B a bye.

October 31—High School A vs. High School B; Y. M. C. A. vs. Wests; Centaurs a bye.

November 7—High School A vs. Y. M. C. A.; High School B vs. Centaurs; Wests a bye.

November 14—Wests vs. High School B; High School A vs. Centaurs; Y. M. C. A. a bye.

November 21—Centaurs vs. Wests; Y. M. C. A. vs. High School B; High School A a bye.

November 28—High School A vs. Wests; Y. M. C. A. vs. Centaurs; High School B a bye.

December 5—High School B vs. High School A; Wests vs. Y. M. C. A.; Centaurs a bye.

December 12—Y. M. C. A. vs. High School A; Centaurs vs. High School B; Wests a bye.

December 19—High School B vs. Wests; Centaurs vs. High School A; Y. M. C. A. a bye.

December 26—Wests vs. Centaurs; High School B vs. Y. M. C. A.; High School A a bye.

It was announced by Mr. Jack Walker that entries for the cup ties would close today, according to the regulations under which they will be played. It is probable that the list will be held open for a day or so longer, however. Entries may be sent in to Mr. Jack Youson.

It was stated by Secretary Youson that the Victoria Wests would not agree to play on the Dallas Road grounds. The Wests-Bays match was allotted the Royal Athletic grounds, but Mr. Youson, representing the Wests, held out for Beacon Hill, claiming that his club was entitled to that grounds. He objected to the Royal Athletic Park on the score that the cost entailed would be greater than the receipts. There is just a chance, therefore, that the Wests-Bays match will not be played.

COMMERCIAL HOCKEY LEAGUE TO ORGANIZE

Meeting Will Be Held on Monday Evening—More Entries Than Last Season Desired

Activities in amateur ice hockey will be opened in earnest next Monday, when a meeting of the Commercial League will be held in the Newton Advertising Agency office for the purpose of organising for the season. The meeting will be called to order at [illegible] o'clock.

The league desires to have more [illegible] than it did last season and [illegible] clubs intending to [illegible] representatives present at the [illegible].

DAVID SPENCER, LIMITED
